frans floris de vriendt was among the most celebrated netherlandish artists of the sixteenth century more renowned in his day than bruegel the elder this book relates floris s hybridizing art to the social religious and political crises reshaping his society

Woodcuts of Women

2007-12-01

despite the tremendous number of studies produced annually in the field of dutch art over the last 30 years or so and the strong contemporary market for works by dutch masters of the period as well as the public s ongoing fascination with some of its most beloved painters until now there has been no comprehensive study assessing the state of research in the field as the first study of its kind this book is a useful resource for scholars and advanced students of seventeenth century dutch art and also serves as a springboard for further research its 19 chapters divided into three sections and written by a team of internationally renowned art historians address a wide variety of topics ranging from those that might be considered traditional to others that have only drawn scholarly attention comparatively recently

Stevens's Historical Collections ...

1881

renaissance readers perceived the print book as both a thing and a medium a thing that could be broken or reassembled and a visual medium that had the power to reflect transform or deceive at the same historical moment that print books remediated the visual and material structures of manuscript and oral rhetoric the relationship between vision and perception was fundamentally called into question investigating this crisis of perception pauline reid argues that the visual crisis that suffuses early modern english thought also imbricates sixteenth and seventeenth century print materials these vision troubles in turn influenced how early modern books and readers interacted platonic aristotelian and empirical models of sight vied with one another in a culture where vision had a tenuous relationship to external reality through situating early modern books design elements such as woodcuts engravings page borders and layouts as important rhetorical components of the text reading by design articulates how the early modern book responded to epistemological crises of perception and competing theories of sight

The Art of the Woodcut

2010-04-21

in recent years many historians have argued that the reformation did not as previously thought hamper the development of northern european visual culture but rather gave new impetus to the production diffusion and reception of visual materials in both catholic and protestant milieus this book investigates the crosscurrents of exchange in the realm of illustrated religious literature within and beyond confessional and national borders and against the background of recent insights into the importance of on the one hand material as well as on the other hand sensual and emotional aspects of early modern culture each chapter in the volume helps illuminate early modern religious culture from the perspective of the production of illustrated religious texts to see the book as object a point at which various vectors of early modern society met case studies together with theoretical contributions shed light on the ways in which illustrated religious books functioned in evolving societies by analysing the use re use and sharing of illustrated religious texts in england france the low countries the german states and switzerland interpretations based on points of material interaction show us how the most basic binaries of the early modern world catholic and protestant word and image public and private were disrupted and negotiated in the realm of the illustrated religious book through this approach the volume expands the historical appreciation of the place of imagery in post reformation europe

Frans Floris (1519/20–1570): Imagining a Northern Renaissance

2018-03-20

in 1547 the young king edward vi issued a series of religious injunctions that were intended to reform the churches in england religious imagery was a tangible and permanent aspect of the landscape both inside and outside churches for many people it was one of the first aspects of the church to be reformed and the degree to which it was reformed

often was indicative of an individual's or community's theological leanings behind this destruction lay a longstanding debate over the nature purpose and appropriate uses of images particularly in relation to worship and devotion the reformation lines between icon and idol however are much more difficult to identify than any single debate event or royal injunction would suggest from icons to idols tracks the image debate from the perspectives of both protestants and catholics across the period of religious change in england from 1525 to 1625 for scholars of the english reformation iconoclasm has played a major role in the historiographical disputes over the nature length and efficacy of protestant reform the fresh perspective of david j davis incorporates geography historical use and abuse popular appeal size dimensions and what was represented

Stevens's Historical Collections

1881

delving into the intersections between artistic images and philosophical knowledge in europe from the late sixteenth to the early eighteenth centuries the art of philosophy shows that the making and study of visual art functioned as important methods of philosophical thinking and instruction from frontispieces of books to monumental prints created by philosophers in collaboration with renowned artists susanna berger examines visual representations of philosophy and overturns prevailing assumptions about the limited function of the visual in european intellectual history rather than merely illustrating already existing philosophical concepts visual images generated new knowledge for both aristotelian thinkers and anti aristotelians such as descartes and hobbes printmaking and drawing played a decisive role in discoveries that led to a move away from the authority of aristotle in the seventeenth century berger interprets visual art from printed books student lecture notebooks alba amicorum friendship albums broadsides and paintings and examines the work of such artists as pietro testa léonard gaultier abraham bosse dürer and rembrandt in particular she focuses on the rise and decline of the plural image a genre that was popular among early modern philosophers plural images brought multiple images together on the same page often in order to visualize systems of logic metaphysics natural philosophy or moral philosophy featuring previously unpublished prints and drawings from the early modern period and lavish gatefolds the art of philosophy reveals the essential connections between visual commentary and philosophical thought

Bibliotheca Meicana

1869

essays on the turbulent history of syon abbey focussing on the role played by reading and writing in constructing its identity and experience founded in 1415 the double monastery of syon abbey was the only english example of the order established by the fourteenth century mystic st bridget of sweden after its dispersal at the dissolution the community survived in exile and was briefly restored during the reign of mary i but with the accession of elizabeth i some of the nuns and brothers once again sought refuge on

the continent first in the netherlands and later in lisbon this volume of essays traces the fortunes of syon abbey and the bridgettine order between 1400 and 1700 examining the various ways in which reading and writing shaped its identity and defined its experience and exploring the interconnections between late medieval and post reformation monastic history and the rapidly evolving world of communication learning and books they extend our understanding of religious culture and institutions on the eve of the reformation and the impulses that inspired initiatives for early modern catholic renewal and also illuminate the spread of literacy and the gradual and uneven transition from manuscript to print between the fourteenth and the seventeenth centuries in the process the volume engages with larger questions about the origins and consequences of religious intellectual and cultural change in late medieval and early modern england e a jones is senior lecturer in english university of exeter alexandra walsham is professor of modern history and a fellow of trinity college cambridge contributors e a jones alexandra walsham peter cunich virginia bainbridge vincent gillespie c annette grise claire walker caroline bowden claes geijrot ann hutchison

2006

though his writings have long been integral to the canon of early modern english literature it is only in very recent scholarship that edmund spenser has been understood as a preeminent anthropologist whose work develops a complex theory of cultural change the contributors to this volume approach spenser's work from that new perspective rethinking his contribution as a theorist of culture in light of his poetics the essays in the collection begin with close readings of spenser's writings and end by challenging the ethnographic allegories that shape our knowledge of early modern england in this book spenser is proven to be not only a powerful theorist of allegory and poetics but also a profound and subtle ethnographer of england and ireland this is an interdisciplinary volume incorporating studies on history and art history as well as literary criticism the essays are based on papers presented at the faerie queen in the world 1596 1996 edmund spenser among the disciplines a conference which took place at the yale center for british art in september 1996

1986

in this ground breaking book zapalac brings together the methods of social intellectual and art history in showing how the protestant reformation altered the terms of political discourse in a german free imperial city in zapalac s view visual and verbal images many of them having their origins in conceptions of the sacred were more central to sixteenth century political thought within the city walls than was the rationalized language of law drawing on a wealth of sources she traces the impact of religious change on the languages of judgment and authority used in the city of regensburg and thereby sheds light on the nature of political thought in early modern germany

The Art of Philosophy

2017-02-28

this wordless graphic novel tells its socially charged story through 188 stark arresting images open to endless interpretations the tragic often violent story of a young girl unfolds through 17 chapters

Syon Abbey and Its Books

2010

wordless books were stories from the early part of the twentieth century told in black and white woodcuts imaginatively authored without any text although woodcut novels have their roots spreading back through the history of graphic arts including block books and playing cards it was not until the early part of the twentieth century that they were conceived and published despite its short lived popularity the woodcut novel had an important impact on the development of comic art particularly contemporary graphic novels with a focus on adult themes scholar david a beronä examines the history of these books and the art and influence of pioneers like frans masereel lynd ward otto nückel william gropper milt gross and laurence hyde among others the images are powerful and iconic and as relevant to the world today as they were when they were first produced beronä places these artists in the context of their time and in the context of ours creating a scholarly work of important significance in the burgeoning field of comics and comics history

Edmund Spenser

2017-03-02

the book of revelation has fired the imaginations of theologians preachers artists and ordinary christians across the centuries the resulting number of commentaries on the book is enormous and most studies can only touch upon at most a representative sample of this vast literature as a consequence many focus largely on the interpretation of the apocalypse only within specific periods such as the patristic period or during the reformation one result of this severe limitation given the vast literary corpus is how historical interpretations in critical commentaries of the book of revelations tend to prioritize authors from the modern period in the book of revelation and its interpreters short studies and an annotated bibliography editors richard tresley and ian boxall fill a significant gap in the scholarly literature at its heart is an extensive annotated bibliography covering commentaries on the book up to 1700 including most of the early illuminated apocalypses supporting the presentation of this survey of the historical interpretations of the book of revelation is an extended overview of revelation s often colorful reception history by christopher rowland together with a number of short studies on various aspects of the book these include discussions of specific commentators such as sean michael ryan s look at tyconius and francis x gumerlock exploration of chromatius of aquileia alongside a more general treatment of revelation s impact on the figure of john of patmos in an essay by ian boxall and the visual reception of revelation in natasha o hear s article the book of revelation and its interpreters provides a valuable bibliographical resource for those working in the field of biblical studies history of christianity eschatology and apocalyptic studies the accompanying essays orient the authors recorded in the bibliography within a larger context offering specific examples of the apocalypse s capacity to speak in fresh and often surprising ways to diverse audiences throughout history

The Woodcut Portraits

2012

first published in 2001 the north east of brazil is renowned for its rich and vibrant popular culture the region s festivals music poetry and popular religious rituals have attracted increasing interest from around the world in recent decades and the woodcuts that are the subject of this book are one of the most striking expressions of that cultural dynamism they have been a significant art form in brazil since the 1940s when they began to be produced in large quantities as illustrations for the covers of cheap pamphlets of poetry sold in streets and markets throughout the north east where they were known as literatura de cordel or string literature so called because the pamphlets were frequently displayed on cords hung between posts this work the first detailed study of brazilian woodcut prints in the english language deals with the origins and development of the art form its themes the traditions and culture of the brazilian north east social and political issues humour and satire all lavishly illustrated as this superb study shows the brazilian woodcut print has all the power quickness and wit of a great popular art
