the way in which a society expresses grief can reveal how it views both intense emotions and public order in thirteenth century italian communes a conscious effort to change appropriate public reaction to death threw into sharp relief connections among urban politics gender expectations and understandings of emotionality in passion and order carol lansing explores a dramatic change in thinking and practice about emotional restraint this shift was driven by politics and understood in terms of gender thirteenth century court cases reveal that male elites were accustomed to mourning loudly and demonstratively at funerals as many as a hundred men might gather in a town s streets and squares to weep and cry out even tear at their beards and clothing yet these elites enacted laws against such emotional display and proceeded to pay the fines levied against themselves for violating their own legislation political theorists used gender norms to urge men to restrain their passions histrionic grieving like lust was now considered womanish lawmakers drew on a complex of gendered ideas about grief and public order to characterize governance in ways that linked the self and the state they articulated their beliefs in terms of rules of decorum how men and women need to behave in order to live together in society lansing demonstrates this change through a rich combination of sources archival records from orvieto bologna and perugia political treatises literary works notably petrarch s letters and representations of grief in painting and sculpture

## ***Passion and Order 2008***

humor and evil proposes a new approach to invective and comic poetry in italy during the thirteenth and

fourteenth centuries and opens the way for an innovative understanding of dante s masterpiece the middle ages in italy offer a wealth of vernacular poetic invectives polemical verses aimed at blaming specific wrongdoings of an individual group city or institution that are both understudied and rarely juxtaposed modern criticism has generally viewed these poems as disengaged from concrete issues and as a marginal form of recreation with little ethical value also no study has yet provided a scholarly examination of the connection between this medieval invective tradition and its elements of humor derision and reprehension in dante s comedy this book argues that these comic texts are rooted in and actively engaged with the social political and religious conflicts of their time political invective has a dynamic ethical orientation that is mediated by a humor that disarms excessive hostility against its individual targets providing an opening for dialogue while exploring medieval comic poems by rustico filippi from florence cecco angiolieri from siena and folgore da san gimignano this study unveils new biographical data about these poets retrieved from italian state archives most of these data are published here in english for the very first time and ultimately shows what the medieval invective tradition can add to our understanding of dante s comedy

## **Dante's Comedy and the Ethics of Invective in Medieval Italy** **2019-11-18**

archetypal images carl jung believed when elaborated in tales and ceremonies shape culture s imagination and behavior unfortunately such cultural images can become stale and lose their power over the mind but an artist or mystic can refresh and revive a culture s imagination by exploring his personal dream images and connecting them to the past dante alighieri presents his divine comedy as a dream vision carefully establishing the date at which it came to him good friday 1300 and maintaining the perspective of that time and place throughout the work upon unfolding history modern readers will therefore welcome a jungian psychoanalytical approach which can trace both instinctual and spiritual impulses in the human psyche some of dante s innovations admission of virtuous pagans to limbo and individualized scenes meeting personal friends in the afterlife more likely spring from unconscious inspiration than conscious didactic intent for modern readers a focus on dante s personal dream journey may offer the best way into his poem

## **Dante's Dream 2021-07-05**

traces the development of the sonnet from its invention in the early italian renaissance to the time of john milton showing how the form has developed and acquired the capacity to express lyrically the nature of the desiring self

## **The Development of the Sonnet 2003-09-02**

tracing the interwoven traditions of modern welfare states in europe over five centuries thomas mcstay adams explores social welfare from portugal france and italy to britain belgium and germany he shows that the provision of assistance to those in need has faced recognizably similar challenges from the 16th century through to the present how to allocate aid equitably and with dignity how to give support without undermining autonomy and motivation and how to balance private and public spheres of action and responsibility across two authoritative volumes adams reveals how social welfare administrators critics and improvers have engaged in a constant exchange of models and experience locally and across europe the narrative begins with the founding of the casa da misericordia of lisbon in 1498 a model replicated throughout portugal and its empire and ends with the relaunch of a social agenda for the european union at the meeting of the council of europe in lisbon in 2000 volume 1 which focuses on the period from 1500 to 1700 discusses the concepts of welfare and tradition it looks at how 16th century humanists joined with merchants and lawyers to renew traditional charity in distinctly modern forms and how the discipline of religious reform affected the exercise of political authority and the promotion of economic productivity volume 2 examines 18th century bienfaisance which secularized a christian humanist notion of beneficence producing new and sharply contested assertions of social citizenship it goes on to consider how national struggles to establish comprehensive welfare states since the second half of the 19th century built on the power of the vote as politicians pushed by activists and advised by experts appealed to a growing class of industrial workers lastly it looks at how 20th century welfare states addressed aspirations for social citizenship while the institutional framework for european economic cooperation came to fruition

susan rutherford explores verdi s operas in the context of women s social cultural and political history in 19th century italy

## **Verdi, Opera, Women 2013-11-07**

the history of italian opera marks the first time a team of expert scholars has worked together to investigate the italian operatic tradition in its entirety rather than limiting its focus to individual eras or major composers and their masterworks including both musicologists and historians of other arts the contributors approach opera not only as a distinctive musical genre but also as a form of extravagant theater and a complex social phenomenon resulting in the sort of panoramic view critical to a deep and

fruitful understanding of the art opera on stage the second book of this multi volume work to be published in english in an expanded and updated version focuses on staging and viewing italian opera from the court spectacles of the late sixteenth century to modern day commercial productions mercedes viale ferrero describes the history of theater and stage design detailing the evolution of the art well into the twentieth century gerardo guccini does the same for stage and opera direction and the development of the director s role as an autonomous creative force kathleen kuzmick hansell discusses the interrelationships between theatrical ballet and italian opera from the age of venetian opera to the early twentieth century the visual emphasis of all three contributions is supplemented by over one hundred illustrations and because much of this material on the more spectacular visual aspects of italian opera has never before appeared in english opera on stage will be welcomed by scholars and opera enthusiasts alike

italian ballet in the eighteenth century was dominated by dancers trained in the style known as grotesque a virtuoso style that combined french ballet technique with a vigorous athleticism that made italian dancers in demand all over europe gennaro magri s trattato teorico prattico di ballo the only work from the eighteenth century that explains the practices of midcentury italian theatrical dancing is a starting point for investigating this influential type of ballet and its connections to the operatic and theatrical genres of its day the grotesque dancer on the eighteenth century stage examines the theatrical world of the ballerino grottesco magri s own career as a dancer in italy and vienna the genre of pantomime ballet as it was practiced by magri and his colleagues across europe the relationships between dance and pantomime in this type of work the music used to accompany pantomime ballets and the movement vocabulary of the grotesque dancer appendices contain scenarios from eighteenth century pantomime ballets including several of magri s own devising an index to the step vocabulary discussed in magri s book and an index of dancers in italy known to have performed as grotteschi illustrations music examples and dance notations also supplement the text

## **Money and Banking in Medieval and Renaissance Venice 2020-03-24**

this book includes most of the contributions presented at a conference on universities and science in the early modern period held in 1999 in valencia spain the conference was part of the five centuries of the life of the university of valencia cinc segles celebrations and from the outset we had the generous

support of the patronato foundation overseeing the events in recent decades as a result of a renewed attention to the institutional political social and cultural context of scientific activity we have witnessed a reappraisal of the role of the universities in the construction and development of early modern science in essence the following conclusions have been reached 1 the attitudes regarding scientific progress or novelty differed from country to country and follow different trajectories in the course of the early modern period 2 institutions of higher learning were the main centers of education for most scientists 3 although the universities were sometimes slow to assimilate new scientific knowledge when they did so it helped not only to remove the suspicion that the new science was intellectually subversive but also to make science a respectable and even prestigious activity 4 the universities gave the scientific movement considerable material support in the form of research facilities such as anatomical theaters botanical gardens and expensive instruments 5 the universities provided professional employment and a means of support to many scientists and 6 although the relations among the universities and the academies or scientific societies were sometimes antagonistic the two types of institutions often worked together in harmony performing complementary rather than competing functions moreover individuals moved from one institution to another as did knowledge methods and scientific practices

## **The Grotesque Dancer on the Eighteenth-century Stage 2005**

Italy's residents are a migratory people since 1800 well over 27 million left home but over half also returned home again as cosmopolitans exiles and workers of the world they transformed their homeland and many of the countries where they worked or settled abroad but did they form a diaspora migrants maintained firm ties to native villages cities and families few felt much loyalty to a larger nation of Italians rather than form a nation unbound the transnational lives of Italy's migrants kept alive international regional cultures that challenged the hegemony of national states around the world this ambitious and theoretically innovative overview examines the social cultural and economic integration of Italian migrants it explores their complex yet distinctive identity and their relationship with their homeland taking a comprehensive approach

## **Methods and Materials of Literary Criticism 1920**

historians have long held that during the decades from the end of the habsburg valois wars in 1559 until the outbreak in 1618 of the thirty years war spanish domination of italy was so complete that one can refer to the period as a pax hispanica in this book based on extensive research in the papers of the ambassadors who represented charles v and philip ii michael j levin instead reveals the true fragility of spanish control and the ambiguous nature of its impact on italian political and cultural life while

exploring the nature and weaknesses of spanish imperialism in the sixteenth century levin focuses on the activities of spain s emissaries in rome and venice drawing us into a world of intrigue and occasional violence as the spaniards attempted to manipulate the crosscurrents of italian and papal politics to serve their own ends levin s often colorful account uncovers the vibrant world of late renaissance diplomacy in which popes were forced to flee down secret staircases and ambassadors too often only narrowly avoided assassination an important contribution to our understanding of the nature and limits of the spanish imperial system agents of empire more broadly highlights the centrality of diplomatic history to any consideration of the politics of empire
