who is the uninvited guest wearing a creepy costume at prince prospero's ball can a man be driven mad by the sounds of the crime he has committed these spine tingling stories and others by edgar allan poe are adapted for a first chapter book reader the definitive work on stalin's purges the author's the great terror was universally acclaimed when it first appeared in 1968 provides accounts of on everything from the three great moscow trials to methods of obtaining confessions the purge of writers and other members of the intelligentsia on life in the labor camps and many other key matters on the fortieth anniversary of the first edition it is remarkable how many of the most disturbing conclusions have borne up under the light of fresh evidence the rli killing machine extraordinaire a doll's house is a three act play written by henrik ibsen in 1879 it is a groundbreaking play that explores the themes of marriage gender roles and identity in 19th century society ibsen's play was met with controversy and outrage due to its bold critique of the traditional roles of men and women in marriage the play has since become a classic of modern drama and is widely studied and performed in educational institutions around the world the play is set in norway and follows the story of nora helmer a seemingly happy and content housewife however as the play unfolds we see that nora is living a double life she has secretly borrowed money to save her husband's life and is now being blackmailed by the lender the play depicts nora's struggle to find her true identity and the consequences of living a life based on societal expectations rather than her own desires one of the main themes explored in the play is the role of women in marriage nora is portrayed as a typical 19th century wife who is expected to be obedient nurturing and submissive however as the play progresses we see that nora is not content with this role and longs for independence and self discovery ibsen challenges the traditional gender roles and shows how society's expectations can suffocate and limit an individual's growth another important theme in the play is the concept of identity nora's character undergoes a transformation throughout the play as she begins to question her role as a wife and mother she realizes that she has been living a life that is not truly her own and she must break free from societal expectations to find her true self this theme is also reflected in the character of torvald nora's husband who is more concerned with his social status and reputation than his wife's happiness ibsen also uses symbolism throughout the play to convey deeper meanings the title a doll's house itself is significant as it represents the idea that women were seen as mere playthings or objects in a patriarchal society the christmas tree a recurring symbol in the play represents the facade of happy family life that nora and torvald try to maintain however as the tree begins to shed its decorations it symbolizes the unraveling of nora's perfect facade at the time of its publication a doll's house was met with harsh criticism and was deemed scandalous due to its portrayal of a woman challenging societal norms however its impact on modern drama cannot be overstated ibsen's play paved the way for a new genre of realistic drama and influenced many other playwrights to explore similar themes it continues to be studied and performed today as it remains relevant in its critique of societal expectations and the struggle for individual identity cmh publication 70 30 edited by frank n schubert and theresa kraus discusses the united states army's role in the persian gulf war from august 1990 to february 1991 shows the various strands that came together to produce the army of the 1990s and how that army in turn performed under fire and in the glare of world attention retains a sense of immediacy in its approach contains maps which were carefully researched and compiled as original documents in their own right includes an index this volume challenges the prima facie that conspiracy theories are irrational beliefs and presents fresh perspectives from the philosophical community on what is becoming an issue of increasing relevance in our time the author examines the factors which influence terrorists target selection in particular he looks at the influence of the ideologies strategies and tactics of terrorist groups and describes how these are restricted by the terrorists resources by protective and anti terrorist measures by the society within which the terrorists operate and by the nature of the terrorists and their supporters he concludes that terrorists target selection is often both explicable and logical terrorism and asylum edited by james c simeon thoroughly analyses terrorism's use in forced displacement to limit access to asylum and to exclude persons from refugee protection while offering practical alternative solutions for advancing human rights and dignity for everyone this accessible textbook is the only

story of the development of modern medicine told through the lives of the physician scientists who paved the way how does medical science advance popular historians would have us believe that a few heroic individuals possessing superhuman talents lead an unselfish quest to better the human condition but as renowned yale surgeon and medical historian sherwin b nuland shows in this brilliant collection of linked life portraits the theory bears little resemblance to the truth through the centuries the men and women who have shaped the world of medicine have been not only very human but also very much the products of their own times and places presenting compelling studies of great medical innovators and pioneers doctors gives us a fascinating history of modern medicine ranging from the legendary father of medicine hippocrates to andreas vesalius whose renaissance masterwork on anatomy offered invaluable new insight into the human body to helen taussig founder of pediatric cardiology and co inventor of the original blue baby operation here is a volume filled with the spirit of ideas and the thrill of discovery an incisive and devastating critique of capitalism sounding the alarm that the system poses a threat to human well being worldminds provides broad exposure to a geography that is engaged with discovery interpretation and problem solving its 100 succinct chapters demonstrate the theories methods and data used by geographers and address the challenges posed by issues such as globalization regional and ethnic conflict environmental hazards terrorism poverty and sustainable development through its theoretical and practical applications we are reminded that the study of geography informs policy making the sri lankan ethnic conflict

that has occurred largely between sinhala buddhists and tamil hindus is marked by a degree of religious tolerance that sees both communities worshiping together this study describes one important site of such worship the ancient hindu temple complex of munnesvaram standing adjacent to one of sri lanka s historical western ports the fortunes of the munnesvaram temples have waxed and waned through the years of turbulence violence and social change that have been the country s lot since the advent of european colonialism in the indian ocean bastin recounts the story of these temples and analyses how the hindu temple is reproduced as a center of worship amidst conflict and competition this volume examines the law and system of control which govern immigration and asylum in the uk it begins with the historical and legal context explains who is subject to immigration control and describes the legal and administrative structure of the system first published in 2003 this is the first unclassified official history authored by the u s army special operations command relating to operation enduring freedom contains extensive maps and illustrations previously difficult to obtain this extensive study shows what army special operations forces arsof accomplished to drive the taliban from power and to destroy al quaeda and taliban strongholds as part of the global war on terrorism during operation enduring freedom black skin white masks is a classic devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world first published in english in 1967 this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace franz fanon identifies a devastating pathology at the heart of western culture a denial of difference that persists to this day a major influence on civil rights anti colonial and black consciousness movements around the world his writings speak to all who continue the struggle for political and cultural liberation with an introduction by paul gilroy author of there ain t no black in the union jack amoral cunning ruthless and instructive this multi million copy new york times bestseller is the definitive manual for anyone interested in gaining observing or defending against ultimate control from the author of the laws of human nature in the book that people magazine proclaimed beguiling and fascinating robert greene and joost elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of machiavelli sun tzu and carl von clausewitz and also from the lives of figures ranging from henry kissinger to p t barnum some laws teach the need for prudence law 1 never outshine the master others teach the value of confidence law 28 enter action with boldness and many recommend absolute self preservation law 15 crush your enemy totally every law though has one thing in common an interest in total domination in a bold and arresting two color package the 48 laws of power is ideal whether your aim is conquest self defense or simply to understand the rules of the game the first biography in twenty six years of jane addams founder of the hull house settlement and winner of the 1931 nobel peace prize written with access to hundreds of new family documents today jane addams is widely recognized as an extraordinary figure in our nation s history one of a roster of great americans abraham lincoln and martin luther king jr among them who made lasting contributions to social justice but as with the lives of many iconographic figures the legend often obscures the real story frequently recognized as one of the most influential women of the century and considered a heroine by nurses and social workers around the globe jane addams had to struggle long and hard to earn her place in history born in 1860 on the eve of the civil war she lived during pivotal times when women were only beginning to create new roles for themselves ironically building on the victorian ideal of women as ministering angels focusing on her metamorphosis from a frail small town girl into a woman who inspired hundreds of others to join her movement to serve the poor a useful woman delves into the mysterious ailments and other troubles young jane faced examining for the first time jane s physical and mental health and the effect of her father s remarriage after her mother s death biographer gioia diliberto directly links addams s proneness to depression to her inability to conform to the mores of her time also for the first time she examines in detail addams s two marriage like relationships with women with hundreds of previously unavailable documents at her disposal diliberto has written a fascinating study of one of the most intriguing and important women in history concentrating on her difficult formative years with compelling and groundbreaking results judged only as a world war two survivor s chronicle millie werber s story would be remarkable enough born in central poland in the town of radom she found herself trapped in the ghetto at the age of fourteen a slave laborer in an armaments factory in the summer of 1942 transported to auschwitz in the summer of 1944 before being marched to a second armaments factory she faced death many times indeed she was certain that she would not survive but she did many years later when she began to share her past with eve keller the two women rediscovered the world of

the teenage girl millie had been during the war most important millie revealed her most precious private memory of a man to whom she was married for a few brief months he was if not the love of her life her first great unconditional passion he died leaving millie with a single photograph taken on their wedding day and two rings of gold that affirm the presence of a great passion in the bleakest imaginable time in this groundbreaking book garth myers uses african urban concepts and experiences to speak back to theoretical and practical concerns he argues for a re-visioning a seeing again and a revising of how cities in africa are discussed and written about in both urban studies and african studies cities in africa are still either ignored banished to a different other lesser category of not quite cities or held up as examples of all that can go wrong with urbanism in much of the mainstream and even critical urban literature myers instead encourages african studies and urban studies scholars across the world to engage with the vibrancy and complexity of african cities with fresh eyes touching on a diverse range of cities across africa from zanzibar to nairobi cape town to mogadishu kinshasa to dakar the book uses the author's own research and a close reading of works by other scholars writers and artists to help illuminate what is happening in and across the region's cities this book is a pioneering study of joshua mqabuko nkomo a zimbabwean nationalist whose crucial role in the country's anti-colonial struggle has largely gone unrecognized these essays trace his early influence on zimbabwean nationalism in the late 1950s and his leadership in the armed liberation movement and postcolonial national building processes as well as his denigration by the winners of the 1980 elections mugabe's zimbabwe african national union patriotic front the nkomo that emerges is complex and contested the embodiment of zimbabwe's tortured trajectory from colony to independent postcolonial state this is an essential corrective to the standard history of twentieth century zimbabwe and an invaluable resource for scholars of african nationalist liberation movements and nation building the authors of the articles in this anthology examine the underlying impact of the cold war on protracted conflict in africa and asia these area specialists examine the factors that produced prolonged conflict and what each side in them considered the cause of these struggles they analyze the reasons for success and failure in each of these regional conflicts the classic work on the music of afrofuturism from jazz to jungle more brilliant than the sun adventures in sonic fiction is one of the most extraordinary books on music ever written part manifesto for a militant posthumanism part journey through the unacknowledged traditions of diasporic science fiction this book finds the future shock in afrofuturist sounds from jazz dub and techno to funk hip hop and jungle by exploring the music of such musical luminaries as sun ra alicia coltrane lee perry dr octagon parliament and underground resistance theorist and artist kodwo eshun mobilises their concepts in order to open the possibilities of sonic fiction the hitherto unexplored intersections between science fiction and organised sound situated between electronic music history media theory science fiction and afrodiasporic studies more brilliant than the sun is one of the key works to stake a claim for the generative possibilities of afrofuturism much referenced since its original publication in 1998 but long unavailable this new edition includes an introduction by kodwo eshun as well as texts by filmmaker john akomfrah and producer steve goodman aka kode9 the roman army is recognised as one of the most effective fighting machines that the world has ever seen however the senior officer corps of the roman army was essentially amateur made up of aristocratic men pursuing political careers what then was the secret of the romans success kate gilliver provides the first comprehensive study of military theory as well as practice in the late republic and early empire she draws not just on the ancient textbooks but makes use of the other contemporary literary evidence and on the wealth of archaeological evidence for military activity in five central chapters dr gilliver looks in detail at all aspects of the roman army at its organisation the order of march temporary encampments pitched battles and siege warfare these chapters reveal the army's very flexible organisation and skills as well as its discipline the book also contains a fine range of illustrations an appendix of all the key roman military treatises and a full glossary of key technical terms the complete work will command a wide international readership particularly among military historians archaeologists and wargamers sydney brenner was born in south africa and educated at the university of witwatersrand johannesburg medicine and science he then moved to oxford and received a d phil in 1952 before joining the mrc unit in the cavendish laboratory in cambridge in 1956 his various accomplishments include serving as the director of mrc laboratory of molecular biology in cambridge founding the molecular science institute in berkeley holding the position of distinguished professor at the salk institute la jolla and during his last years sydney brenner played a key role in shaping research and development in the biomedical sector in singapore as a star senior fellow he was one of the greatest biologists of the

20th century and was awarded the nobel prize in 2002 for his pioneering work in the field of molecular biology he was also known for his boundless curiosity sharp intellect and courage to speak with clarity and characteristic wit as evident in this delightful book which is a compilation of the columns that he wrote for current biology in the late 90s the improbable imprisonment that transformed i into a novelist continues into a third fourth and fifth day u obsesses over formalities as i quietly coaxes her into taking care of herself as this bizarre farce of a kidnapping stretches towards the inevitable breaking point i starts to discover the truth about u a truth he should never have learned developing a critical perspective on the challenges and possibilities presented by cyberspace this book explores where and how political subjects perform new rights and duties that govern themselves and others online the unprecedented magnitude of death during world war i forever altered how people perceived their world and how they represented those perceptions in postcards from the trenches allyson booth traces the complex relationship between british great war culture and modernist writings she shows that through the experience of the great war both civilian and combatant modernist writers found that language could no longer represent experience she goes on to identify and contextualize several of the resulting modernist tropes she links the dissolving modernist self to soldiers familiarity with corpses the modernist mistrust of factuality to the apparent inaccessibility of facts regarding the rape of belgium and the modernist interest in multiple viewpoints to the singularity of perspective with which generals studied battlefield maps though her emphasis is on literary works by robert graves e m forster and vera brittain among others booth s analysis extends to memorials posters and architecture of the great war this interdisciplinary quality of booth s study results in a much deeper understanding of how the great war affected cultural representations and how that culture represented the war the callery pear tree standing at the base of the world trade center is almost destroyed on september 11 but it is pulled from the rubble coaxed back to life and replanted as part of the 9 11 memorial
