Service Design 2013-03-13 in the past century the borders have blurred between art and design designers artists aestheticians curators art and design critics historians and students all seem confused about these borders figurative painting was reduced to graphic design while still being called art figurative sculpture was reduced to nonfunctional industrial design while being called sculpture this fundamental blunder resulted from total misunderstanding of the concept of abstraction by the founders of modern art comprehensive analysis shows that so called abstract art is neither abstract nor art but a very simple even trivial kind of design in this book the prehistoric philosophical logical historic and religious sources of the confusion between art and design are analyzed a new and coherent conceptual framework is proposed to distinguish between art and design nearly one hundred distinctions contradistinctions and comparisons between art and design are presented showing clearly that they are totally independent domains philosophy of art books are written by philosophers for philosophers not for artists and designers therefore they are irrelevant for the latter especially for students who normally lack the necessary conceptual training this book is not only for theoreticians but for art and design practitioners at all levels this is a new kind of book an illustrated philosophical book for the art and design world which can make philosophical knowledge accessible and useful for solving real problems for designers and artists who are mostly visual rather than conceptual thinkers the book contains over two hundred images thus art and design people can easily follow the arguments and reasoning presented in this book in their own language images lack of distinction between art and design harms both design is contaminated by the ills of modern art while modern art cannot recover from its current stagnation whilst under the illusion that it is actually art rather than design
