which direction in life and way will you now be traveling once a person uses and understands the great learning aid and the great advantages of the opposite learning and living technique. Once they move on in leaps and bounds never again to look back and wonder what could have been after spending their lives with the old and obsolete ways of doing everything on the one-sided approach of this book is that it works through the double-entry process to life and way it takes into account the laws and rules based on God's natural laws and ways that comes out of the works of Sir Isaac Newton's universal laws of reality which also states that for every action there is always an opposite and equal reaction or response and outcomes so not to employ these great ways will leave you also never reaching your full potential.
