social polarization has roiled neoliberal political establishments but has rarely culminated in electoral victories for anticapitalist outsiders instead outsiders who accommodate capitalists often prevail capitalist outsiders

revisits celebrated exemplars of latin american populism in mexico and venezuela to shed light on this phenomenon it reveals how anticorruption campaigns boosted mexico s neoliberal era capitalist outsider by drowning out salacious corporate scandals how venezuela s apparently enlightened capitalist outsiders of the 1940s relied on segregationist punitive labor relations and how corporate insiders of venezuela s neoliberal political establishment unwittingly validated the anticapitalist hugo chávez as the true outsider it weaves together these case studies to reveal an unlikely common origin for capitalist outsiders in both countries their sequential insertion into global oil production and mexico s early twentieth century radical oil workers capitalist outsiders moves beyond cataloging populist traits and tactics or devising the institutions that might avert their rise instead it specifies the distinct social bases of capitalist vs anticapitalist outsiders it exposes how a nation s earlier incorporation into the capitalist world economy casts a long shadow over neoliberal era outsider politics
