By the Right Rev. the Bishop of Argyll and the Isles

The Light Fantastic 2009-11-24

darkness isn't the opposite of light it is simply its absence what was radiating from the book was the light that lies on the far side of darkness the light fantastic the discworld is in danger heading towards a seemingly inevitable collision with a malevolent red star its magic fading it needs a hero and fast what it doesn't need is rincewind an inept and cowardly wizard who is still recovering from the trauma of falling off the edge of the world or twoflower the well meaning tourist whose luggage has a mind and legs of its own which is a shame because that's all there is his spectacular inventiveness makes the discworld series one of the perennial joys of modern fiction mail on sunday incredibly funny compulsively readable the times the light fantastic is the second book in the wizards series but you can read the discworld novels in any order

A Series of Unfortunate Events 01. The Bad Beginning 2012-09-01

there is nothing to be found in the pages of a series of unfortunate events but misery and despair you still have time to choose another international best seller to read but if you must know what unpleasantries befall the charming and clever baudelaire children read on in the bad beginning the three youngsters encounter a greedy and repulsive villain itchy clothing a disastrous fire a plot to steal their fortune and cold porridge for breakfast then again why trouble yourself with the unfortunate resolutions with 5 million copies sold in the uk alone one might consider leemony snicket's a series of unfortunate events to make him one of the most successful children's authors of the past decade we however consider these miserable so called adventure stories and the hollywood film starring jim carrey that accompanied the books for children as nothing more than a dreadful mistake

The Colour Of Magic 2008-12-26

named as one of the bbc's 100 most inspiring novels it was octarine the colour of magic it was alive and glowing and vibrant and it was the undisputed pigment of the imagination somewhere between thought and reality exists the discworld a magical world not totally unlike our own except for the fact that it travels through space on the shoulders of four giant elephants who in turn stand on the shell of an astronomically huge star turtle of course rincewind is the world's worst wizard who has just been handed a very important job to look after the world's first tourist upon whose survival rests the peace and prosperity of the land unfortunately their journey across the disc includes facing robbers monsters mercenaries and death himself and the whole thing's just a game of the gods that might send them over the edge if you've never read a discworld novel what's the matter with you guardian pratchett uses his other world to hold up a distorting mirror to our own the times the colour of magic is the first book in the wizards series but you can read the discworld novels in any order

A Series of Fortunate Events 2020-10-06

fascinating and exhilarating sean b carroll at his very best bill bryson author of the body a guide for occupants from acclaimed writer and biologist sean b carroll a rollicking awe inspiring story of the surprising power of chance in our lives and the world why is the world the way it is how did we get here

does everything happen for a reason or are some things left to chance philosophers and theologians have pondered these questions for millennia but startling scientific discoveries over the past half century are revealing that we live in a world driven by chance a series of fortunate events tells the story of the awesome power of chance and how it is the surprising source of all the beauty and diversity in the living world like every other species we humans are here by accident but it is shocking just how many things any of which might never have occurred had to happen in certain ways for any of us to exist from an extremely improbable asteroid impact to the wild gyrations of the ice age to invisible accidents in our parents gonads we are all here through an astonishing series of fortunate events and chance continues to reign every day over the razor thin line between our life and death this is a relatively small book about a really big idea it is also a spirited tale drawing inspiration from monty python kurt vonnegut and other great thinkers and crafted by one of today's most accomplished science storytellers a series of fortunate events is an irresistibly entertaining and thought provoking account of one of the most important but least appreciated facts of life

A Series of Temperance Sermons 1841

the shady crew of the white raven run freight and salvage at the fringes of our solar system they discover the wreck of a centuries old exploration vessel floating light years away from its intended destination and revive its sole occupant who wakes with news of first alien contact when the crew break it to her that humanity has alien allies already she reveals that these are very different extra terrestrials and the gifts they bestowed on her could kill all humanity or take it out to the most distant stars file under science fiction

The Wrong Stars 2017-11-02
