on the period from the beginning of the sino-japanese war in 1931 until the formal conclusion of the pacific war with the san francisco peace treaty of 1951 the contributors analyse the recent efforts of korean japanese and chinese scholars to write a common history of northeast asia and question the underlying motivations for their efforts and subsequent achievements in doing so they contend that the greatest obstacle to reconciliation in northeast asia lies in the existence of divided and often conflicting historical memories the book argues that a more fruitful approach lies in understanding how historical memory has evolved in each country and been incorporated into respective master narratives through uncovering the existence of different master narratives it is hoped citizens will develop a more self critical self reflective approach to their own history and that such an introspective effort has the potential to lay the foundation for greater self and mutual understanding and eventual historical reconciliation in the region this book will be essential reading for students and scholars of asian history asian education and international relations in east asia

History Gr 10 L/b 2011-02-08 the rationale for the present text hollywood or history an inquiry based strategy for using film to teach about inequality and inequity throughout history stems from two main things first and foremost is the fact that the reviews of the first two volumes in the hollywood or history series have been overwhelmingly positive especially as it pertains to the application of the strategy for practitioners classroom utility and teacher practice have continued to be the primary objectives in developing the hollywood or history strategy the second thing is that this most recent volume in the series takes it in a new direction rather than focusing on eras in history it focuses on the themes of inequity and inequality throughout history and how teachers can utilize the hollywood or history strategy to tackle some of the more complicated content throughout history that many teachers tend to shy away from there is a firm belief that students connection to film along with teachers ability to use film in an effective manner will help alleviate some of the challenges of teaching challenging topics such as inequity and inequality in terms of gender race socioeconomic status and so much more the book provides 30 secondary lesson plans grades 6-12 that address nine different topics centered around inequity and inequality throughout history many of which connect students to the world we are living in today
