The Book at War 2023-12-05

a magisterial sunday times history of how books were used in war across the twentieth century both as weapons and as agents for peace we tend not to talk about books and war in the same breath one ranks among humanity s greatest inventions the other among its most terrible but as esteemed literary historian andrew pettegree demonstrates the two are deeply intertwined the book at war explores the various roles that books have played in conflicts throughout the globe winston churchill used a travel guide to plan the invasion of norway lonely families turned to libraries while their loved ones were fighting in the trenches and during the cold war both sides used books to spread their visions of how the world should be run as solace or instruction manual as critique or propaganda books have shaped modern military history for both good and ill with precise historical analysis and sparkling prose the book at war accounts for the power and the ambivalence of words at war

Beyond the Reading Wars *2006*

no single debate in australian primary education has recurred as often caused as much angst or been politicised so keenly as that related to the teaching of reading and more specifically the merits or disadvantages of using so called whole language versus phonics methods to help children learn to read this very timely book will prove a useful tool for teachers and parents who are struggling to understand the issues and history behind this often bitter debate and the complexities that exist around learning to be literate in the 21st century the authors present different voices and different approaches as they explore the history and latest research about reading process and pedagogy and share their experience and knowledge about processes of learning to read along with an extensive range of strategies and practical teaching tips and insights this book seeks not only to offer advice on how we can help children on this important learning journey but also to demonstrate constructive ways for all in the education community to move forward beyond the old and tired reading wars

War and Speech *2020-05-05*

mean girls meets the debate team in this fish out of water story about a teen girl determined to sabotage the elitist speech team at her new school not everyone can be a winner and sydney williams knows this better than anyone after her white collar criminal dad is sent to prison sydney fails almost all of her classes and moves into a dingy apartment with her mom who can barely support them with her minimum wage job at the mall a new school promises a fresh start except eaganville isn't exactly like other high schools it's ruled with an iron fist by a speech team that embodies the most extreme winner takes all philosophy sydney is befriended by a group of fellow misfits each of whom has been personally victimized by the speech team it turns out sydney is the perfect plant to take down the speech team from within with the help of her co-conspirators sydney throws herself into making nationals in speech where she will be poised to topple the corrupt regime but what happens when sydney realizes she actually has a shot at winning sydney lost everything because of her dad's obsession with being on top winning at speech might just be her ticket out of a life of loserdom can she really walk away from that

Reading and War in Fifteenth-century England *2012*

reading writing and the prosecution of warfare went hand in hand in the fifteenth century demonstrated by the wide circulation and ownership of military manuals and ordinances and the integration of military concerns into a huge corpus of texts but their relationship has hitherto not received the attention it deserves a gap which this book remedies arguing that the connections are vital to the literary culture of the time and should be recognised on a much wider scale beginning with a detailed consideration of the circulation of one of the most important military manuals in the middle ages vegetius de re militari it highlights the importance of considering the activities of a range of fifteenth century readers and writers in relation to the wider contemporary military culture it shows how england's wars in france and at home and the wider rhetoric and military thinking those wars generated not only shaped readers responses to their texts but also gave rise to the production of one of the most elaborate rich and under recognised pieces of verse of the wars of the roses in the form of knyghthode and bataile it also indicates

how the structure language and meaning of canonical texts including those by lydgate and malory were determined by the military culture of the period

The ARTHASHASTRA *2000-10-14*

an extraordinary detailed manual on statecraft and the science of living by one of classical India's greatest minds Kautilya also known as Chanakya and Vishnugupta wrote the Arthashastra not later than 150 AD though the date has not been conclusively established legend has it that he was either a Brahmin from Kerala or from North India however it is certain that Kautilya was the man who destroyed the Nanda dynasty and installed Chandragupta Maurya as the king of Magadha a master strategist who was well-versed in the Vedas and adept at creating intrigues and devising political stratagems Kautilya's genius is reflected in his Arthashastra which is the most comprehensive treatise of statecraft of classical times the text contains fifteen books which cover numerous topics viz the king a complete code of law foreign policy secret and occult practices and so on the Arthashastra is written mainly in prose but also incorporates 380 shlokas Artha literally wealth is one of four supreme aims prescribed by Hindu tradition however it has a much wider significance and the material well-being of individuals is just a part of it in accordance with this Kautilya's Arthashastra maintains that the state or government of a country has a vital role to play in maintaining the material status of both the nation and its people therefore a significant part of the Arthashastra has to do with the science of economics when it deals with the science of politics the Arthashastra describes in detail the art of government in its widest sense the maintenance of law and order as also of an efficient administrative machinery

War: How Conflict Shaped Us* *2020-10-06

is peace an aberration the New York Times bestselling author of Paris 1919 offers a provocative view of war as an essential component of humanity named one of the ten best books of the year by the New York Times book review Margaret Macmillan has produced another seminal work she is right that we must more than ever think about war and she has shown us how in this brilliant elegantly written book H. R. McMaster author of Dereliction of Duty and

battlegrounds the fight to defend the free world the instinct to fight may be innate in human nature but war organized violence comes with organized society war has shaped humanity s history its social and political institutions its values and ideas our very language our public spaces our private memories and some of our greatest cultural treasures reflect the glory and the misery of war war is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity margaret macmillan looks at the ways in which war has influenced human society and how in turn changes in political organization technology or ideologies have affected how and why we fight war how conflict shaped us explores such much debated and controversial questions as when did war first start does human nature doom us to fight one another why has war been described as the most organized of all human activities why are warriors almost always men is war ever within our control drawing on lessons from wars throughout the past from classical history to the present day macmillan reveals the many faces of war the way it has determined our past our future our views of the world and our very conception of ourselves

Russia Against Napoleon *2009-10-01*

a compulsive page turner a triumph of brilliant storytelling an instant classic that is an awesome remarkable and exuberant achievement simon Sebag Montefiore winner of the Wolfson History Prize and shortlisted for the Duff Cooper Prize in the summer of 1812 Napoleon the master of Europe marched into Russia with the largest army ever assembled confident that he would sweep everything before him yet less than two years later his empire lay in ruins and Russia had triumphed this is the first history to explore in depth Russia s crucial role in the Napoleonic Wars re-creating the epic battle between two empires as never before Dominic Lieven writes with great panache and insight to describe from the Russians viewpoint how they went from retreat defeat and the burning of Moscow to becoming the new liberators of Europe the consequences of which could not have been more important ultimately this book shows memorably and brilliantly Russia embarking on its strange central role in Europe s existence as both threat and protector a role that continues in all its complexity into our own lifetimes

as the people's republic's seemingly inexorable rise to economic and military power continues never has the need for a better grasp of chinese strategic thought by the west been more acute in deciphering sun tzu derek yuen seeks to reclaim for the reader the hidden contours and lost chinese and taoist contexts of sun tzu's renowned treatise the art of war a literary classic and arguably one of the most influential books ever written he also explains its historical philosophical strategic and cross cultural significance his comprehensive analysis of sun tzu based on a close reading of the chinese sources also reconstructs the philosophy taoist methodology and worldview that effectively form the cornerstones of chinese strategic thinking which are arguably as relevant today as at any moment in history yuen's innovative reading and analysis of sun tzu within and from a chinese context is a new way of approaching the strategic master's main concepts which he compares with those of clausewitz liddell hart and other western strategists deciphering sun tzu offers illuminating analysis and contextualization of the art of war in a manner that has long been sought by western readers and opens new means of getting to grips with chinese strategic thought

***A Very Uncivil War* 2002**

a vigorous reappraisal of american literature inspired by the first world war american world war i literature has long been interpreted as an alienated outcry against modern warfare and government propaganda this prevailing reading ignores the us army's unprecedented attempt during world war i to assign men except notoriously african americans to positions and ranks based on merit and it misses the fact that the culture granted masculinity only to combatants while the noncombatant majority of doughboys experienced a different alienation that of shame drawing on military archives current research by social military historians and his own readings of thirteen major writers keith gandal seeks to put american literature written after the great war in its proper context as a response to the shocks of war and meritocracy the supposedly antiwar texts of noncombatant lost generation authors dos passos hemingway fitzgerald cummings and faulkner addressed often in coded ways the noncombatant failure to measure up gandal also examines combat soldier writers william march thomas boyd laurence stallings and hervey allen their works are considered straight forward antiwar narratives but they are in addition shaped by experiences of meritocratic recognition especially meaningful for socially disadvantaged men gandal furthermore contextualizes the sole world war i novel by an african american veteran victor daly revealing a complex experience of both army discrimination and empowerment among the french finally gandal explores three women writers katherine anne porter willa cather and ellen la motte who saw the war create frontline opportunities for women while allowing them to be arbiters of masculinity at home ultimately war isn't the only hell shows how american world war i literature registered the profound ways in which new military practices and a foreign war unsettled traditional american hierarchies of class ethnicity gender and even race

battles protests standoffs strikes we hear about them all the time on the surface a battle and a protest don t seem to have much in common but they re really just two ways of handling a dispute one uses violence the other uses signs and picket lines but both start as a disagreement between two groups of people both are conflicts since it s impossible for people to agree on everything all the time conflicts naturally pop up every day all over the world sometimes they turn into full blown wars which can be a lot trickier to understand than the conflicts that pop up in everyday life but every conflict has some things in common using real world examples why do we fight teaches kids to recognize the structures factors and complex histories that go into creating conflicts whether personal or global as well as the similarities between both they ll be given tools to seek out information enabling them to make informed opinions while learning to respect that others may form different ones from culture clashes and trade disputes to disagreements about how to govern why do we fight insists that the key to fulfilling humankind s wish for world peace lies in how we choose to deal with conflict and provides a genuine cause for optimism in the face of an at times frightening world
