Capital 1999-09-02 a classic of early modernism capital combines vivid historical detail with economic analysis to produce a bitter denunciation of mid victorian capitalist society it has also proved to be the most influential work in social science in the twentieth century marx did for social science what darwin had done for biology millions of readers this century have treated capital as a sacred text subjecting it to as many different interpretations as the bible itself no mere work of dry economics marx s great work depicts the unfolding of industrial capitalism as a tragic drama with a message which has lost none of its relevance today this is the only abridged edition to take account of the whole of capital it offers virtually all of volume 1 which marx himself published in 1867 excerpts from a new translation of the result of the immediate process of production and a selection of key chapters from volume 3 which engels published in 1895 about the series for over 100 years oxford world s classics has made available the widest range of literature from around the globe each affordable volume reflects oxford s commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

The Family Idiot 2023-01-19 the family idiot is a masterwork by one of the greatest intellects of the twentieth century published in three massive volumes in french between 1971 and 1972 and five volumes in english translation between 1981 and 1993 jean paul sartre s classic study of gustave flaubert is now available to readers in english for the first time in a more digestible abridged edition for sartre understanding how flaubert became flaubert how he came to be the person who penned madame bovary helps us understand the very nature of the modern self sartre devoted a decade at the end of his life to crafting this exhaustive work and it serves as a summary of his committed philosophy compiled by renowned sartre scholar joseph s catalano this abridgment retains the brilliance of the sprawling original and reveals how we are still haunted by the nihilism of the imaginary that was beautifully captured by sartre

The Shorter Proust 2021-09-30 a la recherche du temps perdu by marcel proust is a magnificent and towering achievement of french literature published in english translation in twelve volumes between 1922 and 1931 and totalling nearly one and a half million words it is difficult for many readers to find the time and motivation needed to keep going through to the end as proust has a rich and sometimes discursive style however a powerful structure underlies the whole work which is not revealed till the last chapter the shorter proust which is less than a quarter of the original includes all the crucial characters places and themes needed to understand this and omits everything else it is not intended to improve the original novels by editing as many wonderful passages and descriptions have been left out the style of the book in its vocabulary and sentence structure is unaltered nothing is paraphrased or condensed the text reads as a continuous lively narrative with much of proust s wit and humour and follows the sequence of the original showing the development of all the major characters and including all the incidents which are referred to in the closing passages which resolve the whole novel proust himself encouraged the publication of selected passages showing a coherent whole which is not diffused and will make one want to read the whole book and this is the aim of this selection it is intended to inspire the reader to go to the full text and enjoy individual sections in the knowledge of where they fit into the whole

Jesus the Messiah 2012-05-16 seventeenth and eighteenth century europe was a cauldron of wars and upheavals however in the midst of this turmoil some of the more imaginative and gifted europeans were able to think outside the box on how to establish a lasting peace in europe one of these enlightened europeans was charles irenée castel de saint pierre better known as the abbé de saint pierre throughout his life saint pierre wrote several volumes on a wide range of subjects however the one closest to his heart and which he promoted with the greatest vigour was the 1713 project for perpetual peace known as the projet and its abridged version the abrégé which was published for the first time in 1729 in these works saint pierre proposes the signing of a treaty binding all the nations of europe in a grand alliance and the establishment of a european assembly in a city of peace he also proposed the setting up of a european army to guard the continent s frontiers the abbé de saint pierre also wrote on how to eradicate berber piracy in the mediterranean once and for all a translation of this unpublished project in which malta plays the principal role is also included in this publication as an annex the abbé admitted that he owed the ideas expressed in it to his brother françois antoine de castel de saint pierre who commanded the galleys of the order of st john from 1705 to 1708 the style in which this project is written reflects that which the abbé de saint pierre used in writing the others not least amongst them the abrégé itself
