1866

government departments have been set targets for implementing efficiency gains of 21.5 billion a year by 2007/08 as part of the treasury's efficiency programme following on from the recommendations of the gershon review of public sector efficiency available at [hm.treasury.gov.uk/spending\\_review\\_spend\\_sr04](http://hm.treasury.gov.uk/spending_review_spend_sr04) associated documents spending sr04 efficiency cfm published in july 2004 this nao report examines the progress made towards improving efficiency and highlights examples of good practice from which departments and the wider public sector can learn a companion volume of case studies is available separately hcp 802 ii session 2005/06 isbn 0102937095 the report finds that good progress is being made towards achieving the 21.5 billion target and departments are managing their efficiency programmes well however some caution is needed in assessing the gains reported so far due to the time lags in reporting of data and limitations in measurement methodologies and therefore these should be considered provisional and subject to further verification six key areas are highlighted for future improvements in public sector efficiency including in relation to strategic leadership staff expertise and greater collaboration to share good practice across the public sector

**Reports of the Department of Commerce. Report of the Secretary of Commerce and Reports of Bureaus**

1917

this book presents an alternative approach to monetary theory that differs from the general theory of keynes the monetarism of friedman and the new classicism of lucas particular attention is given to the work of howteen and his analysis of financial crises and his explanation of the great depression without making loss fundamental analysis technical analysis training programme

2023-01-19 3/13

theory of hawtrey is examined in the context of his contemporaries keynes and hayek and the subsequent contributions of friedman and of the monetary approach to the balance of payments studies in the history of monetary theory aims to highlight the misunderstandings of the quantity theory and the price specie flow mechanism and to explain their unfortunate consequences for the subsequent development of monetary theory the book is relevant to researchers students and policymakers interested in the history of economic thought monetary theory and monetary policy

## ***Papers from the Department of Geology***

1896

not long ago a cancer diagnosis was regarded as an automatic death sentence today there are ten million survivors equally impressive is the growing number of clinicians and researchers dedicated to improving the quality of survivors lives and care yet despite this encouraging picture there has never been a reliable central source for relevant clinical information until now this book written by a cancer survivor and sixty other top scientist practitioners responds to the diverse needs of survivors and their support communities by comprehensively addressing the major issues in the field from the burden of survivorship to secondary prevention
