Becoming Past 1940

this book is an exploration of how art specifically paintings in the european manner can be mobilized to make knowledge claims about the past no type of human made tangible thing makes more complex and bewildering demands in this respect than paintings ivan gaskell argues that the search for pictorial meaning in paintings yields limited results and should be replaced by attempts to define the point of such things which is cumulative and ever subject to change he shows that while it is not possible to define what art is other than being an open kind it is possible to define what a painting is as a species of drawing regardless of whether that painting is an artwork or not at any given time the book demonstrates that things can be artworks on some occasions but not necessarily on others though it is easier for a thing to acquire artwork status than to lose it that is the movement of a thing into and out of the artworld is not symmetrical all such considerations are properly matters not of ontology what is and what is not an artwork but of use that is how a thing might or might not function as an artwork under any given circumstances these considerations necessarily affect the approach to paintings that at any given time might be able to function as an artwork or might not be able to function as such only by taking these factors into account can anyone make viable knowledge about the past this lively discussion ranges over innumerable examples of paintings from rembrandt to rothko as well as plenty of far less familiar material from contemporary catholic devotional works to the chinese avant garde its aim is to enhance philosophical acuity in respect of the analysis of paintings and to increase their amenability to philosophically satisfying historical use paintings and the past is a must read for all advanced students and scholars concerned with philosophy of art aesthetics historical method and art history

the complex and coherent development of japanese art during the course of the nineteenth century was inadvertently disrupted by a political event the meiji restoration of 1868 scholars of both the preceding edo 1615 1868 and the succeeding meiji 1868 1912 eras have shunned the decades bordering this arbitrary divide thus creating an art historical void that the former view as a period of waning technical and creative inventiveness and the latter as one threatened by meiji reforms and indiscriminate westernization and modernization challenging past and present to the contrary demonstrates that the period 1840 1890 as seen progressively rather than retrospectively

experienced a dramatic transformation in the visual arts which in turn made possible the creative achievements of the twentieth century the first group of chapters takes as its theme the diverse cultural currents of the transitional period particularly as they applied to art the second section deals with the inconsistent yet determinedly pragmatic courses pursued by artists entrepreneurs and patrons to achieve a secure footing in the uncertain terrain of early meiji further chapters look at how painters and sculptors sought to absorb and integrate foreign influences and reinterpret their own stylistic mediums

john everett millais 1829 1896 is undoubtedly among the most important of victorian artists in his day and our own he remains also the most controversial while during his lifetime controversy centred around his early pre-raphaelite paintings in particular christ in the house of his parents 1850 during the twentieth century the most intense criticism has been directed towards millais's later works such as bubbles 1886 which has been widely condemned as sentimental kitsch these

later paintings have been held up as the epitome of the degradation of art against which avant garde and modernist pioneers struggled none of the existing literature on millais addresses the fundamental problem that this double identity reveals while there is extensive material on the pre raphaelite movement in general millais s own work after the 1850s is rarely discussed in detail despite the fact that he lived and worked for another 30 years after his abandonment of the pre raphaelite style time present and time past the art of john everett millais presents the first comprehensive account of millais s artistic career from beginning to end the book considers the question of high and low cultural status in debates during millais s own day and in subsequent critical thinking situating millais s art as a whole within this cultural framework

why the art historian s craft is a uniquely melancholy art melancholy is not only about sadness despair and loss as renaissance artists and philosophers acknowledged long ago it can engender a certain kind of creativity born from a deep awareness of the mutability of life and the inevitable cycle of birth and death drawing on psychoanalysis philosophy and the intellectual history of the history of art the melancholy art explores the unique connections between melancholy and the art historian s craft though the objects art historians study are materially present in our world the worlds from which they come are forever lost to time in this eloquent and inspiring book michael ann holly traces how this disjunction courses through the history of art and shows how it can give rise to melancholic sentiments in historians who write about art she confronts pivotal and vexing questions in her discipline why do art historians write in the first place what kinds of psychic exchanges occur between art objects and those who write about them what institutional and personal needs does art history serve what is lost in historical writing about art the melancholy art looks at how melancholy suffuses the work of some of the twentieth century s most powerful and poetic writers on the history of art including alois riegler franz wickhoff adrian stokes michael baxandall meyer schapiro and jacques derrida a disarmingly personal meditation by one of our most distinguished art historians this book explains why to write about art is to share in a kind of intertwined pleasure and loss that is the very essence of melancholy

the archaeology of seeing provides readers with a new and provocative understanding of material culture through exploring visual narratives captured in cave and rock art sculpture paintings and more the engaging argument draws on current thinking in archaeology on how we can interpret the behaviour of people in the past through their use of material culture and how this affects our understanding of how we create and see art in the present exploring themes of gender identity and story telling in visual material culture this book forces a radical reassessment of how the ability to see makes us and our ancestors human as such it will interest lovers of both art and archaeology illustrated with examples from around the world from the earliest art from hundreds of thousands of years ago to the contemporary art scene including street art and advertising janik cogently argues that the human capacity for art which we share with our most ancient ancestors and cousins is rooted in our common neurophysiology the ways in which our brains allow us to see is a common heritage that shapes the creative process what changes according to time and place are the cultural contexts in which art is produced and consumed the book argues for an innovative understanding of art through the interplay between the way the human brain works and the culturally specific creation and interpretation of meaning making an important contribution to the debate on art archaeology
