The Light Fantastic

darkness isn t the opposite of light it is simply its absence what was radiating from the book was the light that lies on the far side of darkness the light fantastic the discworld is in danger heading towards a seemingly inevitable collision with a malevolent red star its magic fading it needs a hero and fast what it doesn t need is rincewind an inept and cowardly wizard who is still recovering from the trauma of falling off the edge of the world or twoflower the well meaning tourist whose luggage has a mind and legs of its own which is a shame because that s all there is his spectacular inventiveness makes the discworld series one of the perennial joys of modern fiction mail on sunday incredibly funny compulsively readable the times the light fantastic is the second book in the wizards series but you can read the discworld novels in any order
