4 6 147 ratings see all formats and editions in this book jane jacobs building on the work of her debut the death and life of great american cities investigates the delicate way cities balance the interplay between the domestic production of goods and the ever changing tide of imports in the same year that the economy of cities was published her article strategies for helping cities 1969b which was essentially a pr ecis of the book appeared in american economic review one of the leading journals in economics with the ex ception of edward glaeser 3 however i am unaware of any other leading economist the economy of cities jane jacobs 4 10 1 190 ratings94 reviews the thesis of this book is that cities are the primary drivers of economic development her main argument is that explosive economic growth derives from urban import replacement about the economy of cities in this book jane jacobs building on the work of her debut the death and life of great american cities investigates the delicate way cities balance the interplay between the domestic production of goods and the ever changing tide of imports cities at the center of global growth the urban landscape is shifting which cities will be hot spots for growth until now a company strategy focused on developed economies together with emerging market megacities with populations of ten million or more has made sense this combination generates more than 70 percent of global gdp today the economy of cities jane jacobs knopf doubleday publishing group jul 20 2016 business economics 288 pages the economics of cities from theory to data stephen j redding working paper 30875 doi 10 3386 w30875 issue date january 2023 economic activity is highly unevenly distributed within cities as reflected in the concentration of economic functions in specific locations such as finance in the square mile in london 1 citations abstract this chapter explores the economy of cities in greater detail first it gives a summary of the growth and development of cities over time with respect to their economic function one of the most important trends over the past century has been rapid urbanisation tied to industrialisation contents the economy of cities work by jacobs learn about this topic in these articles discussed in biography in jane jacobs the economy of cities 1969 discusses the importance of diversity to a city s prosperity and it too challenged much of the conventional wisdom on urban planning economic complexity of cities and its role for resilience plos one open access peer reviewed research article economic complexity of cities and its role for resilience athanasios lapatinas anastasia litina konstantinos poulios published august 4 2022 doi org 10 1371 journal pone 0269797 article authors metrics comments studying the economy of cities is relevant for a number of reasons first of all because most of the planet s population is grouped in them secondly because they concentrate the main social problems that humanity has and finally because they are also the greatest source of creativity innovation and development opportunities to solve those world cities report 2022 envisaging the future of cities seeks to provide greater clarity and insights into the future of cities based on existing trends challenges and opportunities as well as disruptive conditions including the valuable lessons from the covid 19 pandemic and suggest ways that cities can be better prepared to address a wid america s economic hubs there are some obvious winners when it comes to the largest u s cities by gdp including nyc los angeles dallas and san francisco in the table below we ve listed each of the 384 metropolitan areas out of the dataset all the way down to last place sebring avon park florida alongside respective ranks and gdp as of 2024 the new york metropolitan area is the world s principal fintech and financial center and the largest metropolitan economy in the world with a nominal gross metropolitan product of over us 2 5 trillion this is a list of cities in the world by nominal gross domestic product gdp economic role of cities un habitat this report examines the economic role of cities it illustrates the important contributions of cities to national economic development and poverty reduction it looks at the agglomeration economies city clusters city regions and mega city regions this report examines the economic role of cities the economy of cities jacobs announced in the book is my effort to develop a theory of city economic growth 1969a 3 unlike typical contributions to this area by more conventional economists her exposition in the economy of cities contains no mathematical models although there are a few schematic equations and several useful singapore singapore s economy expanded at a faster pace in the third quarter than initially estimated while the government expects 2021 growth to come in at around 7 the singapore economy the economy of singapore is a highly developed mixed market economy with dirigiste characteristics singapore s economy has been consistently ranked as the most open in the world the joint 4th least corrupt and the most pro business the economy rebounded in 2021 growing by 7 6 after the pandemic induced 4 1 contraction in 2020 manufacturing rose by 13 2 while construction soared by 20 1 services expanded by 5 6 with all subsectors showing positive growth domestic demand grew by a robust 8 9 growth while investment had double digit growth
