Издание состоит из трех книг представляющих собой серию небольших очерков по разнообразным вопросам гражданского права которые почти не обсуждаются ни в учебной ни в специальной литературе главным образом из за их незначительности экстравагантности а также из за их нахождения на стыке гражданского права с другими отраслями права и даже неюридическими дисциплинами Приобретение навыка решения подобных вопросов представляется весьма важным для всех практикующих юристов которых жизнь регулярно забрасывает в ситуации не предусмотренные законодательством Воспитывая навык критического отношения к оценке ситуаций традиционно третирующихся как лежащие вне сферы внимания права и юриспруденции эта книга способствует формированию первоначальных представлений о задачах приемах и границах гражданско правового регулирования
