argues that post katrina new orleans is a key site for exploring competing narratives of american decline and renewal at the beginning of the twenty first century through the lens provided by the tenth anniversary of hurricane katrina after katrina argues that the city of new orleans emerges as a key site for exploring competing narratives of us decline and renewal at the beginning of the twenty first century deploying an interdisciplinary approach to explore cultural representations of the post storm city anna hartnell suggests that new orleans has been reimagined as a laboratory for a racialized neoliberalism and as such might be seen as a terminus of the american dream this us disaster zone has unveiled a network of social and environmental crises that demonstrate that prospects of social mobility have dwindled as environmental degradation and coastal erosion emerge as major threats not just to the quality of life but to the possibility of life in coastal communities across america and the world and yet after katrina also suggests that new orleans culture offers a way of thinking about the united states in terms that transcend the binary of national renewal or declension the post hurricane city thus emerges as a flashpoint for reflecting on the contemporary united states anna hartnell is senior lecturer in contemporary literature at birkbeck university of london and the author of rewriting exodus american futures from du bois to obama

Building a Core Print Collection for Preschoolers 1965

in treme jaimey fisher analyzes how the hbo television series treme 2010 13 treads new ground by engaging with historical events and their traumatic aftermaths in particular with hurricane katrina in 2005 and subsequent flooding in new orleans instead of building up to a devastating occurrence david simon s much anticipated follow up to the wire 2002 08 unfolds with characters coping in the wake of catastrophe in a mode that fisher explores as afterness treme charts these changes while also memorializing the number of new orleans cultures that were immediately endangered david simon s and eric overmyer s treme attempts something unprecedented for a multi season series although the show follows in some ways in the celebrated footsteps of the wire for example in its elegiac tracking of the historical struggles of an american city fisher investigates how treme varies from the wire s work with genre and what replaces it the wire is a careful even baroque variation on the police drama while treme dispenses with genre altogether this poses considerable challenges for popular television which simon and overmyer address in several ways including by offering a carefully montaged map of new orleans and foregrounding the distance witnessing of watershed events there another way in which treme sets itself apart is its memorialization of the city s inestimable contributions to american music especially to jazz soul rhythm and blues rap rock and funk treme gives such music and its many makers unprecedented attention both in terms of screen time for music and narrative exposition around musicians a key element of the volume is its look at the show s themes of race crime and civil rights as well as the corporate versus community recovery and remaking of the city treme s synthesizing mélange of the arts in their specific geographical context coupled with political and socio economic analysis of the city highlights the show s unique approach fans of the works of simon and overmyer as well as television studies students and scholars will enjoy this keen eyed approach to a beloved show
