for evaluating and analyzing evidence 5 glossary explains technical terms often used in forensic science together with the development of transformative technologies that epitomize globalization the ongoing movements of people across borders and other socio economic pressures are creating a fast changing business environment that is difficult for business to understand let alone control dominant social expectations that immigrants should seek to adopt an assimilationist socialization path towards the host country s mainstream are contradicted by minority ethnic group resilience there is no evidence that these groups naturally disappear within the cultural and behavioural contexts of their adopted countries since ethnic minority consumers cannot be expected to assimilate then they maintain some significant degree of unique ethnicity related consumer characteristics that convert into threats and opportunities for business the inherent socialisation process also provides opportunities for ethnic entrepreneurship and for proliferation of ethnic minority business following from the extensive examination of scholarly perspectives of ethnic marketing theory there is an acknowledged and marked divide between theoretical exhortations and what is done in practice a relative oversight of the implications of mixed embedded markets and a propinquity to overlook the crucial role played by ethnic entrepreneurship and ethnic networks opportunity valuations are difficult to enact due to a lack of intelligence about ethnic markets variable sentiment about the future of ethnic marketing links to different predictions on how the drivers of globalization will impact on the acculturation paths of ethnic minorities keeping a focus on the ethnic group as the unit of analysis combining ethnic marketing and ethnic entrepreneurship theories provides intelligence about contemporary ethnic marketing and practice perspectives the ultimate objective is to reduce the theory practice divide through the development of a collaborative framework between business and scholars that converts into theory in use deputy district attorney joshua jin is up against the wall with his life in crisis he is forced to take on a politically charged case involving the rape of a thirteen year old girl the victim refuses to talk the ex con charged with the crime was arrested on a hunch and there is no physical evidence under immense pressure to win a conviction jin must first earn the confidence of his stone silent client a troubled teenager who trusts no one working against a brilliant high priced defense attorney who wants nothing more than to crush the opposition particularly when her opposition is josh jin he throws his heart and soul into an impossible case that is far more explosive than he had ever imagined detective ida mae rollins searches for the identity of a homicide victim who was dismembered and dumped along a road in southeastern wisconsin her subsequent search for the killer leads the diminutive spiky haired blonde investigator on a body strewn trail that stretches from wisconsin into iowa and ultimately into southern illinois arkansas and missouri ida as she prefers to be called gets a lucky break while grocery shopping during a visit to her mother s farm she spots a man she had believed to be murdered and follows him across the state line what follows is a fast paced discovery of drug dealing involving the man and his partner a strikingly pretty pathological liar of a woman who detests men and her own mother but is there anything linking the woman to men who were murdered in wisconsin iowa and missouri ida digs deep for physical evidence even as her own boss sheriff peter clark wants action taken against the man who reported what he believed to be mere littering secure the scene and gather up your eyewitnesses this cool title introduces readers to the art of crime scene investigations and the scientific method each book includes
