### **Operator's and Organizational Maintenance**

**Manual** 1899 this book presents state of the  
art works and systematic reviews in the  
emerging field of computational intelligence  
ci in electronic health care the respective  
chapters present surveys and practical  
examples of artificial intelligence  
applications in the areas of human machine  
interface hmi and affective computing machine  
learning big health data and visualization  
analytics computer vision and medical image  
analysis the book also addresses new and  
emerging topics in ci for health care such as  
the utilization of social media sm and the  
introduction of new intelligent paradigms in  
the security and privacy domains which are  
critical for the health sector the chapters  
while of course not exhaustively addressing  
all the possible aspects of the aforementioned
