The Perfection Point: Fastest Marathon 2003 a deft reinterpretation of the most zealously interpreted picture in the western canon as a therapeutic artifact albrecht dürer's famous portrayal of creative effort in paralysis the unsurpassed masterpiece of copperplate engraving titled melencolia i has stood for centuries as a pictorial summa of knowledge about the melancholic temperament a dense allegory of the limits of earthbound arts and sciences and the impossibility of attaining perfection dubbed the image of images for being the most zealously interpreted picture in the western canon melencolia i also presides over the origins of modern iconology art history's own science of meaning yet we are left with a clutter of mutually contradictory theories a historiographic ruin that confirms the mood of its object in perfection's therapy mitchell merback reopens the case file and argues for a hidden intentionality in melencolia's opacity its structural chaos and its resistance to allegorical closure that intentionality he argues points toward a fascinating possibility never before considered that dürer's masterpiece is not only an arresting diagnosis of melancholic distress but an innovative instrument for its undoing merback deftly resituates dürer's image within the long history of the therapeutic artifact placing dürer's therapeutic project in dialogue with that of humanism's founder francesco petrarch merback also unearths dürer's ambition to act as a physician of the soul celebrated as the apelles of the black line in his own day and ever since as germany's first renaissance painter theorist the dürer we encounter here is also the first modern christian artist addressing himself to the distress of souls including his own melencolia thus emerges as a key reference point in a venture of spiritual ethical therapy a work designed to exercise the mind restore the body's equilibrium and help in getting on with the undertaking of perfection

**The Perfect Crime** 1643 creation how we are here not just us of course but bluetits and hereford cattle and cabbages and e coli and deserts and mountains and suns and nebulae in fact all that is so not only why are we here but why is there a here for us to inhabit that is this book s theme inevitably it doesn t answer the question in a mechanistic sense a telescope cannot look at itself and neither can an inhabitant of the universe say how it came to be but that does not stop those questions haunting us so where shall we turn to cosmology the concept of an initial event a big bang is now almost universally accepted but what caused that most would feel that this is not a question science can answer the first two contributors to this book are professional cosmologists yet cosmology is only a background for this book not its core theme that theme is the conviction that the universe owes its existence to a divine creator and the specific formulations of this conviction in the three great monotheistic religions the abrahamic faiths the scriptures of all three faiths include the creation accounts in the first two chapters of genesis later developments moved the expressions of the three faiths considerably apart but the social and political conditions of the 21st c world make it imperative that every effort should be put into a recovery of understanding between their practitioners the purpose of this book is to contribute to that understanding of thirteen chapters two are by jewish authors and three by moslems several of the christian authors also are deeply versed in the other traditions together the chapters show that the attitudes of the three faiths to creation have far more in common than otherwise in particular they are noticeably and encouragingly coming together in their endorsements of 21st c concerns for the environment the book derives from a conference of the science and religion forum in sept 2006 but all chapters have been rewritten for publication and carefully edited with linking commentaries

*The Workes of William Ames, Translated Out of the Latine for Publike Use* 1985 in the name of efficiency the practice of education has come to be dominated by

neoliberal ideology and procedures of standardization and quantification such attempts to make all aspects of practice transparent and subject to systematic accounting lack sensitivity to the invisible and the silent to something in the human condition that cannot readily be expressed in an either or form seeking alternatives to such trends saito reads dewey s idea of progressive education through the lens of emersonian moral perfectionism to borrow a term coined by stanley cavell she elucidates a spiritual and aesthetic dimension to dewey s notion of growth one considerably richer than what dewey alone presents in his typically scientific terminology

Debtor-creditor Law Manual 1982-06-30 are angels real or imaginary can they really save your life or intervene in your destiny if they are real can we talk to them like we would a good friend do they hear our thoughts and know our every deed do angels have opinions or judge us archangels speak answers these and many other questions the best way to use angels in your life is to think of them as a means to bring you into alignment with your higher truth and higher self when we get stuck in defensive points of view operating primarily from the defended ego we often get ourselves into ruts and patterns that make us miserable with the angel s words this book helps to bump us out of that ego mind and into something grander it asks us to consider love before hate and challenges us to think in new ways

**The Perfection Point: Greatest Bench Press** 2024-01-10 faith and history a comparison of christian and modern views of history by reinhold niebuhr preface the theme of this volume was first presented as the lyman beecher lectures on preaching at the yale divinity school in 1945 some of the same lectures were given by arrangement under the warrack lectureship on preaching at the universities of glasgow and aberdeen in scotland in the winter of 1947 some of the chapters were used as the basis of lectures given under the olaf petri foundation of the university of uppsala in sweden i sought to develop various portions of a general theme in these various lectureships in this volume i have drawn these lectures into a more comprehensive study of the total problem of the relation of the christian faith to modern conceptions of history while the total work therefore bares little resemblance to the lectures it does contain consideration of the specific problems which were dealt with in the lectures i shall not seek to identify this material by chapters as i subjected the whole to reorganization two of these lectureships usually deal with the art of preaching though not a few of the actual lectures have been concerned with the preachers message since i had no special competence in the art of homiletics i thought it wise to devote the lectures to a definition of the apologetic task of the christian pulpit in the unique spiritual climate of our day since several of the beecher lecturers in the past half century sought to accommodate the christian message to the prevailing evolutionary optimism of the nineteenth and early twentieth centuries i thought it might be particularly appropriate to consider the spiritual situation in a period in which this evolutionary optimism is in the process of decay this volume is written on the basis of the faith that the gospel of christ is true for men of every age and that jesus christ is the same yesterday today and forever it is nevertheless the task of the pulpit to relate the ageless gospel to the special problems of each age in doing so however there is always a temptation to capitulate to the characteristic prejudices of an age the preaching of the gospel was not immune to this temptation in the past centuries the real alternative to the christian faith elaborated by modern secular culture was the idea that history is itself christ which is to say that historical development is redemptive typical modern theology accommodated itself to this secular scheme of redemption much too readily meanwhile the experiences of contemporary man have refuted the modern faith in the redemptive character of history itself this refutation has given the christian faith as presented in the bible a new relevance it is not the thesis of this new volume that

this new relevance could establish the truth of the christian gospel in the mind of modern man the truth of the christian faith must in fact be apprehended in any age by repentance and faith it is therefore not made acceptable by rational validation in the first instance it is important nevertheless for the preacher of the gospel to understand and come to terms with the characteristic credos of his age it is important in our age to understand how the spiritual complacency of a culture which believed in redemption through history is now on the edge of despair

*The Works of Hannah More* 2018-09-18 we are born into this world as a triune being with a body soul and spirit our physical body allows us to live within the physical realm and our soul is the director of all our mental and physical labor it is our spirit that gives life or allows us to be alive which in turn allows our conscious soul and physical body to live breathe and move upon death our physical body remains in this physical realm however our soul and spirit will continue on for all eternity within the spiritual realm our spirit and soul are two separate immaterial entities and need to be separated for the purpose of the human spirit to become the gateway for the entrance of god's holy spirit into the human spirit this is the born again experience that leads a person to become a new creation of god the spiritual rebirth of the human spirit is the only way one can enter god's heavenly kingdom and the only way the human spirit can go through the spiritual rebirth is by allowing god's holy spirit entrance into their spirit the only way that god's holy spirit will enter a person's spirit is by that person believing that jesus christ god incarnate died for their sins and the sins of the world thus removing the penalty of judgment of god's wrath upon those who chose to believe and accept jesus christ as their personal lord and savior this book gives biblical support for the reality of the triune composition of humanity and the function and destiny of each
