marx s inferno reconstructs the major arguments of karl marx s capital and inaugurates a completely new reading of a seminal classic rather than simply a critique of classical political economy william roberts argues that capital was primarily a careful engagement with the motives and aims of the workers movement understood in this light capital emerges as a profound work of political theory placing marx against the background of nineteenth century socialism roberts shows how capital was ingeniously modeled on dante s inferno and how marx playing the role of virgil for the proletariat introduced partisans of workers emancipation to the secret depths of the modern social hell in this manner marx revised republican ideas of freedom in response to the rise of capitalism combining research on marx s interlocutors textual scholarship and forays into recent debates roberts traces the continuities linking marx s theory of capitalism to the tradition of republican political thought he immerses the reader in socialist debates about the nature of commerce the experience of labor the power of bosses and managers and the possibilities of political organization roberts rescues those debates from the past and shows how they speak to ever renewed concerns about political life in today s world

covering the two decades from 1972 swiss scholar otto heim presents detailed readings of the novels and short fiction by heretaunga pat baker alan duff patricia grace keri hulme witi ihimaera bruce stewart j c sturm apirana taylor and ngahuia te awakotuku his book places the fiction by maori writers in the context of a culture of survival and traces its textual engagement with violence between empathy and sacrifice from the privacy of domestic violence to the public arenas of systemic

violence and war he argues that out of this confrontation with violence emerges a distinctive ethnic world view created by the construction of individual experience the development of an ideological stance and the expression of a spiritual orientation heim s analysis shows works of fiction by contemporary maori writers as challenging explorations of the constraints placed on the literary imagination by the urgent facts of the human condition and the imperatives of culture
