Good Morning After Supper 2020-11-08

everybody messes up in relationships in business in life it s a fact of human nature that we re flawed people aren t inherently bad but humans tend to do a lot of bad things everyone has engaged in behavior they re not proud of we all have secrets and we re all prone to traits and impulses we wish we didn t have history literature and music for centuries have given us examples of falls from grace tragedies and fatal flaws and then came the digital age with the proliferation of social media so much of our personal and professional behavior can suddenly find itself in the public view what we do personally affects us professionally and vice versa the human tendency to fail those who trust us has changed from a personal crisis to one with a large audience often clamoring for some measure of retribution as humans professionally and personally we find ourselves at risk of lasting reputational damage if we don t find a way to recover and move forward beyond sorry how to own up make good and move forward after a crisis lays out the framework for people to offer sincere and lasting apologies that can help turn around their careers or personal lives in the digital age redemption of one s reputation isn t easy it takes more than a simple apology that s what going beyond sorry means taking the extra steps to ensure you can fight all the hurdles in your way beyond sorry explores the steps one needs to take to move forward including finding the right words delivering the message with credibility taking ownership of our actions and behaviors and living a life that shows those around us that we re worthy of another chance

Beyond Sorry: How to Own Up, Make Good, and Move Forward After a Crisis 2024-04-01

good and evil after auschwitz is a compendium of the papers presented at an extraordinary symposium convened at the vatican in 1998 it represents the views of more than thirty of the world s foremost theologians and religious thinkers on the inescapable moral question of our era the problem of how if at all believers can reconcile their faith in a just and merciful god with the mass murder of millions of innocents during the holocaust although the symposium took place in the vatican it gave voice to the thought and anguish of jewish and protestant thinkers as well as roman catholics the participants came from many different countries and include many individuals well known in european intellectual and philosophical circles the volume includes an interview with marek edelman the last surviving leader of the warsaw ghetto uprising and excerpts from the writings of moshe flinker etty hillesum and dietrich bonhoeffer good and evil after auschwitz is a powerful and thought provoking book the profoundly moving contributions by the symposium participants can serve as signposts to guide us in the effort to confront the awesome questions posed by the holocaust even as they remind us that no human answer can

possibly be adequate to its enormity

amid the clamorous debates on political correctness the western canon and alcohol abuse on campus many observers have failed to notice the most radical change in the american university the golden age of massive government funding is gone and as stuart rojstaczer points out in this incisive look at higher education the consequences are affecting virtually every aspect of university life laced with humorous and insightful anecdotes gone for good is a highly personal tour of the university system as it has evolved from the glory days of phenomenal post wwii growth to the financial stresses that now beset it stuart rojstaczer professor of hydrology at duke shows how almost unlimited funding during the cold war years encouraged universities to become unwieldy behemoths with ever enlarging faculties and administrative staffs an explosion of new buildings that are proving costly to maintain and a parade of programs designed largely to impress other universities rojstaczer asserts that despite the scarcity of new funding sources universities continue to strive for unlimited growth with disastrous results skyrocketing tuition well over 20 000 per year at top tier schools desperate attempts to increase enrollments lower standards inflated grades and new majors in some rather implausible areas of study and increasing pressure on faculty who already spend more time researching than teaching to raise more money through research grants the time has come rojstaczer argues to abandon an outmoded idea of growth and create a leaner university system more beneficial to both students and society for parents students and anyone interested higher education gone for good offers a vivid account of the crossroads where universities now stand and a compelling argument about which path they should take
