**Vrednote v zdravstveni negi 2010** much remains to be known about occupational safety and health occupational diseases legislation practices and cases worldwide as well as the implications for sustainable development in different countries in pandemic crisis conditions thus a better understanding of the different safety and health management developments across different contexts to assess their impact on sustainability is needed the handbook of research on key dimensions of occupational safety and health protection management discusses the necessity to protect the workforce and the importance of occupational safety and health management this book will encourage organizations to create a preventative safety and health culture covering topics such as economic development employment injury insurance and personnel security this book is an excellent resource for managers of public and private organizations executives professionals researchers policymakers human resource managers government authorities professionals students and academicians

**Splošna priporočila za duhovno oskrbo v zdravstveni negi 2020** a significant body of knowledge is the basis for a holistic caring and scientific evidence based nursing education in practice for professional development quality teaching leads to good learning and both aspects are two of the main issues of quality assurance in nursing education today to begin with not all nursing students have the same levels of motivation or learning abilities it is with cognisance of providing quality care for patients that the role of the nurse educator has to be to enhance nursing students learning using scientific evidence based teaching research around teaching and learning processes is an important part of the delivery of quality education which in turn impacts on students learning results and experiences thereby ensuring holistic biopsychosocial care to patients the main aim of teaching and learning in nursing at all

levels is to enhance the nurses contribution to assist the individuals families and communities in promoting and preserving health well being and to efficiently respond to illnesses we hope that this book can be used as a resource to increase the body of knowledge in teaching and learning in nursing thereby enhancing the role and contribution of health care professionals to clinical practice

*Medical Informatics Europe '99* 1999 uvod medicinske sestre si v preteklo desetletje prizadevajo za razvoj in priznanje svojega področja kot samostojne znanstvene discipline disertacija predstavi razvoj izobraževanja ter stanje na področju informacijskih potreb medicinskih sester in babic v sloveniji metode raziskava je imela več sklopov in zajematako kvantitativno kot kvalitativno raziskovalno paradigmo strukturiran anketni vprašalnik je bil poslan 500 naključno izbranim diplomiranim medicinskim sestram ali babicam izhodiščni vzorec je predstavljal 11 8 populacije predstavljena je spletna metrika spletne strani obzornika zdravstvene nege za obdobje od 16 januarja 2009 do 16 januarja 2012 prikazan je trend izposoje obzornika zdravstvene nege v knjižnicah v letih od 2004 do 2010 v zadnjem sklopu je predstavljena bibliometrična analiza bibliografij ter rezultati pisnega intervjuja medicinskih sester z doktoratom znanosti vsem sodelujočim je bila zagotovljena anonimnost rezultati na anketni vprašalnik je odgovorilo 31 8 158 povabljenih med sodelujočimi prevladujejo ženske po izobrazbi diplomirane medicinske sestre ugotovili smo da obstajajo statistično pomembne razlike med opazovanimi kategorijami izobrazbe razlike se kažejo v spremljanju novosti v zdravstveni in babiški negi p

Primeri dobre prakse v zdravstveni negi 2009 medical education has undergone a substantial transformation from the traditional models of the basic classroom laboratory and bedside that existed up to the late 20th century the focus of this text is to review the spectrum of topics that are essential to the training of 21st century healthcare providers modern medical education goes beyond learning physiology pathophysiology anatomy pharmacology and how they apply to patient care contemporary medical education models incorporate multiple dimensions including digital information management social media platforms effective teamwork emotional and coping intelligence simulation as well as advanced tools for teaching both hard and soft skills furthermore this book also evaluates the evolving paradigm of how

teachers can teach and how students can learn and how the system evaluates success

*Etika v zdravstveni negi* 2004 this book is the first of its kind addressing key issues in the teaching and learning of spirituality and spiritual care in the context of nursing and midwifery practice the content is based on the outcomes of a european wide project epicc that brought together leading nursing and midwifery educators and practitioners from 21 countries it highlights the importance of ensuring student nurses and midwives receive sufficient educational preparation to provide spiritual person centred care in turn the book puts forward an innovative and creative approach to the teaching of spiritual person centred care based on an evaluation of best practice across europe the content and activities presented will enable nursing and midwifery educators to acquire new knowledge skills for learning about and teaching on the personal religious and spiritual aspects of person centred care both interactive and engaging it will equip nursing and midwifery students to holistically address the needs of the people they care for the book has the potential to transform the nursing and midwifery workforce of the future by ensuring they are prepared to face the global challenges that are impacting international nursing and midwifery practice

*Varnost bolnikov in osebja v onkologiji in onkološki zdravstveni negi* 2008 ever since 1989 the faculty of organizational sciences university of belgrade has been the host of symorg an event that promotes scientific disciplines of organizing and managing a business traditionally the symposium has been an opportunity for its participants to share and exchange both academic and practical knowledge and experience in a pleasant and creative atmosphere this time however due the challenging situation regarding the covid 19 pandemic we have decided that all the essential activities planned for the international symposium symorg 2020 should be carried out online between the 7th and the 9th of september 2020 we are very pleased that the topic of symorg 2020 business and artificial intelligence attracted researchers from different institutions both in serbia and abroad why is artificial intelligence a disruptive technology simply because it significantly alters the way consumers industries or businesses operate according to the european commission document titled artificial intelligence for europe 2018 ai is a key disruptive technology that has just begun to reshape the world the government of the republic of serbia has also recognized the importance of ai for the further

development of its economy and society and has prepared an ai development strategy for the period between 2020 and 2025 the first step has already been made the science fund of the republic of serbia after a public call has selected and financed twelve ai projects this year more than 200 scholars and practitioners authored and co authored the 94 scientific and research papers that had been accepted for publication in the proceedings all the contributions to the proceedings are classified into the following 11 sections information systems and technologies in the era of digital transformation smart business models and processes entrepreneurship innovation and sustainable development smart environment for marketing and communications digital human resource management smart e business quality 4 0 and international standards application of artificial intelligence in project management digital and lean operations management transformation of financial services methods and applications of data science in business and society we are very grateful to our distinguished keynote speakers prof moshe vardi rice university usa prof blaž zupan university of ljubljana slovenia prof vladan devedović university of belgrade serbia milica Ćurić jović phd director science fund of the republic of serbia and harri ketamo phd founder chairman of headai ltd finland also special thanks to prof dragan vukmirović university of belgrade serbia and prof zoran Ševarac university of belgrade serbia for organizing workshops in fields of data science and machine learning and to prof rade matić belgrade business and arts academy of applied studies and milan dobrotić phd ceo at agremo serbia for their valuable contribution in presenting serbian experiences in the field of ai the faculty of organizational sciences would to express its gratitude to the ministry of education science and technological development and all the individuals who have supported and contributed to the organization of the symposium we are particularly grateful to the contributors and reviewers who made this issue possible but above all we are especially thankful to the authors and presenters for making the symorg 2020 a success
