in recent years cultural commentators have sounded the alarm about the dire state of reading in america americans are not reading enough they say or reading the right books in the right way in this book alan jacobs argues that contrary to the doomsayers reading is alive and well in america there are millions of devoted readers supporting hundreds of enormous bookstores and online booksellers oprah s book club is hugely influential and a recent nea survey reveals an actual uptick in the reading of literary fiction jacobs s interactions with his students and the readers of his own books however suggest that many readers lack confidence they wonder whether they are reading well with proper focus and attentiveness with due discretion and discernment many have absorbed the puritanical message that reading is first and foremost good for you the intellectual equivalent of eating your brussels sprouts for such people indeed for all readers jacobs offers some simple powerful and much needed advice read at whim read what gives you delight and do so without shame whether it be stephen king or the king james version of the bible in contrast to the more methodical approach of mortimer adler s classic how to read a book 1940 jacobs offers an insightful accessible and playfully irreverent guide for aspiring readers each chapter focuses on one aspect of approaching literary fiction poetry or nonfiction and the book explores everything from the invention of silent reading reading responsively rereading and reading on electronic devices invitingly written with equal measures of wit and erudition the pleasures of reading in an age of distraction will appeal to all readers whether they be novices looking for direction or old hands seeking to recapture the pleasures of reading they first experienced as children

purchase one of 1st world library s classic books and help support our free internet library of downloadable ebooks visit us online at 1stworldlibrary org it is impossible to take a walk in the country with an average townsman especially perhaps in april or may without being amazed at the vast continent of his ignorance it is impossible to take a walk in the country oneself without being amazed at the vast continent of one s own ignorance thousands of men and women live and die without knowing the difference between a beech and an elm between the song of a thrush and the song of a blackbird

probably in a modern city the man who can distinguish between a thrush's and a blackbird's song is the exception it is not that we have not seen the birds it is simply that we have not noticed them we have been surrounded by birds all our lives yet so feeble is our observation that many of us could not tell whether or not the chaffinch sings or the colour of the cuckoo we argue like small boys as to whether the cuckoo always sings as he flies or sometimes in the branches of a tree whether chapman drew on his fancy or his knowledge of nature in the lines

early new zealand colonists felt relatively unrestrained both legally and socially by many of the moral standards of the mother country maoris knew little of them and cared even less not that new zealand was a sensual paradise society encouraged its men in the pursuit of pleasure but adultery prostitution incest alcoholism and sexual ignorance brought misery to many people and often made victims of colonial women the rise of the puritan movement is frequently thought to have largely eliminated the licentiousness of the earlier period but this book argues that this was not so the puritans were vigorous propagandists but they enjoyed only limited success against the vested interests of the liquor trade the social customs of the majority of new zealanders and most significantly the emerging modern lifestyles of the twentieth century this offers an analysis of the combination of christian and non religious strands in our social life

almost everybody i know has done it at least once some of my friends indulge on a regular basis women seem especially susceptible to giving it a go i ve been at it since i was at least five what on earth do we imagine we re doing many of us lack a talent for leisure we are working longer hours as we consume more than ever before and as new forms of technology erode the work life balance and yet we often feel that only work can give real meaning to our existence in a world where time is money what is the value of walking without purpose or socialising without networking or travelling for reasons other than our jobs robert dessaix lays out the dilemma that modern westerners face but never in a didactic or dogmatic way he writes that leisure allows us the masters of our own time it allows us to freely choose to do something pleasurable for its own sake or to deepen our sense of who we are as human beings how can we reclaim

our right to rest well and to loaf groom nest and play in his trademark personal and anecdotal style robert dessaix guides us through the history of leisure as with all of his writing this book will be full of wise lessons and intellectual games but above all it will be a lively and engaging conversation with his readers
