what is the difference between a csm and an acsm course *Jan 17 2023*

the certified scrum master csm course is designed as an
entry level certification that introduces delegates to scrum
and primarily the role of the scrum master in scrum the
scrum alliance presume that you have no experience with
scrum and that you have never been a scrum master before
so the curriculum is designed to take you from zero

i have experience as a scrum **master do i still need to do *Dec 16*** ***2022***

if you want to do the acsm and get certification you must have a scrum alliance certified scrum master certification if certification is important to you then yes you will need to do the csm course before doing the acsm course
