Survey of Current Business 2013 an understanding of the role of energy related governance systems and the conditions required for a shift towards renewables in developing countries is urgently needed in order to tap into the global potential of low carbon development although renewable energy sources have become technically feasible and economically viable social and political factors continue to persist as the most critical obstacles for their dissemination how power shapes energy transitions in southeast asia conceptualizes power for the field of sustainable energy governance based on empirical findings from the philippines and indonesia the book develops an analytical approach that incorporates power theory into a multi level governance framework the book begins with a profound background on renewable energy development around the world and presents major trends in development cooperation a power based multi level governance approach is introduced that is rooted in development thinking examining how coordination and power relations shape the development and dissemination of renewable energy technologies the book also shows how decentralization affects low carbon development in emerging economies sparking debate on the ways in which energy transitions can be triggered and sustained in developing countries this book will be of great interest to students and scholars of renewable energy development and environmental politics and governance as well as practitioners in development cooperation

How Power Shapes Energy Transitions in Southeast Asia 2016-12-01 china s rapid industrialisation has led to an air pollution catastrophe concerted efforts to achieve economic growth have led to veiled skies of toxic air and created health and morbidity problems as well as tremendous environmental degradation china s air pollution problems provides an overview of air pollution in china describing how and why china has ended up in such a dire situation what the government is doing to address the problem and the difficulties it is encountering in attempting to reduce the pollution the analysis is based on both grey literature newspaper articles ngo reports chinese government information and on academic studies the grey literature gives a voice to those who suffer from the pollution their advocates and government officers and allows the reader to better grasp the conditions on the ground and the impact of air pollution among people in different areas in china the academic literature adds a theoretical perspective and brings these different case studies into a broader context this book will be of great interest to students of environmental pollution and contemporary chinese studies looking for an introduction to the topic and also for researchers looking for an extensive list of sources and analysis of china s environmental problems

Financial Services and General Government Appropriations for Fiscal Year 2015 2015 this book is an addition to my first book if you can order a pizza you can trade a mechanical approach to options trading it contains several bonus chapters and trade management examples which haven't found their way into my first book it also shows a unique new way of managing short strangles and short straddles and introduces the aggressive short delta strangle a perfect strategy for a high implied volatility environment

China's Air Pollution Problems 2016-04-20 a monetary hope for europe this book studies the euro in a global perspective and opens a new series edited by the Jean Monnet European Centre of Excellence of the University of Florence verso 1 unificazione europea most of the chapters have been written by economists who met and discussed their diverse views at a multidisciplinary conference organized by the centre in May 2013 under the title the euro and the struggle for the creation of a new global currency problems and perspectives in the building of the political financial and economic foundations of the European federal government the list of contributors also includes historians as well as European and international law academics their essays have been revised on the basis and against the backdrop of an ongoing crisis of both the euro and the whole European project in the last years and months the volume aims to provide useful data and interpretations to improve knowledge on the euro and the European Union in their economic historical juridical and political perspectives

If You Can Order A Pizza You Can Trade - The Bonus Chapters 2018-11-24 this book explores the population development challenges in China it started by analyzing two of the major challenges designing a suitable family planning policy and dealing with the serious provincial population difference it then proposes effective measures to address these challenges by adopting various quantitative methods such as system dynamics nonlinear programming and spatial econometrics in evaluating the effects of different policy scenarios which made the results more scientific and reliable thus the final policy suggestions effective and evidence based the book includes a number of mathematical models and is suitable for graduate students and researchers in population modeling and relevant research areas

A Monetary Hope for Europe 2016 does gender matter in global climate change this timely and provocative book takes readers on a guided tour of basic climate science then holds up a gender lens to find out what has been overlooked in popular discussion research and policy debates we see that around the world more women than men die in climate related natural disasters the history of science and war are intimately interwoven masculine occupations and

preoccupations and conservative men and their interests drive the climate change denial machine we also see that climate policymakers who embrace big science approaches and solutions to climate change are predominantly male with an ideology of perpetual economic growth and an agenda that marginalizes the interests of women and developing economies the book uses vivid case studies to highlight the sometimes surprising differential gendered impacts of climate changes

Population Development Challenges in China 2020-09-12 a classic now in its 14th edition communication technology update and fundamentals is the single best resource for students and professionals looking to brush up on how these technologies have developed grown and converged as well as what is in store for the future it begins by developing the communication technology framework the history ecosystem and structure then delves into each type of technology including everything from mass media to computers and consumer electronics to networking technologies each chapter is written by faculty and industry experts who provide snapshots of the state of each individual field altogether providing a broad overview of the role communication technologies play in our everyday lives key features gives students and professionals the latest information in all areas of communication technology the companion website offers updated information and useful links to related industry resources and an instructor site provides a sample syllabus and a test bank this edition features new chapters on automotive telematics digital health and telepresence as well as expanded coverage of tablets phablets and 4k ultra high definition television
