Real Estate Record and Builders' Guide 1871

design strategies for reimagining the city is situated between projective geometry optical science and architectural design it draws together seemingly unrelated fields in a series of new digital design tools and techniques underpinned by tested prototypes the book reveals how the relationship between architectural design and the ubiquitous urban camera can be used to question established structures of control and ownership inherent within the visual model of the western canon using key moments from the broad trajectory of historical and contemporary representational mechanisms and techniques it describes the image's impact on city form from the inception of linear perspective geometry to the digital turn the discussion draws upon combined fields of digital geometry the pictorial adaptation of human optical cues of colour brightness and shape and modern image capture technology webcams mobile phones and uavs to demonstrate how the permeation of contemporary urban space by digital networks calls for new architectural design tools and techniques a series of speculative drawings and architectural interventions that apply the new design tools and techniques complete the book aimed at researchers academics and upper level students in digital design and theory it makes a timely contribution to the ongoing and broadly debated relationship between representation and architecture

United States Official Postal Guide 1882

the making of planning policy is a major political and legal issue and there is currently a considerable focus by the government in england wales and northern ireland on local plan policy making the current climate is characterised by government concern at the slow pace of local plan adoption in england the controversial introduction of neighbourhood planning new strategic planning tools with the planning wales act 2015 and local development plans in northern ireland planning policy is the only book dedicated to planning policy both national and local and includes coverage of the housing and planning act 2016 it covers the policy framework within which planning decisions are taken it addresses how national and local policy is formulated examined and challenged

Design Strategies for Reimagining the City 2022-06-24

almost a century since the idea of creating more humane more human centric cities was brought to the fore how far has mankind progressed towards creating a true city with a heart how far off are we and what can we do to close the gap the first generation of smart cities showed the limits of top down planning in which cities contracted out design and implementation to its providers as residents resented paying high taxes for smart urban features that they did not want or use it became plain that smart cities were not sustainable and needed to be rethought smart city 2.0 starts the design process with understanding the needs of human residents little has yet been written about smart cities second wind this book offers leading edge international perspectives on smart city 2.0 it offers an overview of the sustainable smart city concept presents leading experts latest thinking on strategies for a new generation of smart cities and showcases eight implementation case studies from seven countries all chapters are contributed by prominent leading thinkers and practitioners from a dozen countries representing both the developed and the developing worlds related link s

Real Estate Record and Builders' Guide 1903
