questo volume che inaugura la pubblicazione in formato elettronico delle opere complete di bruno leoni include tutte le 408 recensioni scritte per la rivista il politico nel corso di un decennio 1950 1959 a sorprendere non è soltanto l'elevato numero di recensioni ma anche la diversità degli argomenti trattati dalla psichiatria all'arte dalla religione alla letteratura dall'archeologia alle civiltà orientali dalla storia all'architettura oltre naturalmente alla politica all'economia e al diritto si tratta di un testo utile per due motivi in particolare da un lato per capire meglio il pensiero di leoni poiché in queste recensioni i suoi riferimenti culturali vengono esplicitati e si chiarisce bene quale fosse la sua concezione della politica della filosofia e della società dall'altro esso consente di farsi un'idea sugli argomenti di cui non si discuteva in Italia negli anni cinquanta il politico fondato dallo stesso leoni nel 1950 fu infatti un mirabile tentativo di innovare la cultura italiana e in queste recensioni che sono per la maggior parte di libri stranieri l'autore suggerisce traduzioni e propone idee e argomenti in Italia allora poco conosciuti o spesso conosciuti male le recensioni non sono mai banali e anzi vi emerge con chiarezza quali siano le valutazioni le idee e in generale il pensiero di leoni fare esplorazioni in campi così diversi e saperne trarre vantaggio nell'elaborazione di idee nel proprio settore di ricerca richiede indubbiamente un'intelligenza e una cultura fuori dall'ordinario ma questo era il suo approccio metodologico le scienze umane gli apparivano intimamente connesse e solo da una loro trattazione comune era convinto di poter trovare la soluzione ai problemi sociali

cultural and social groups whose outlines are difficult to identify are often considered invisible occasionally material remains compensate for the absence of historiographical records or literary sources concerning these groups sometimes communities or individuals mentioned in literary sources do not appear to have left material signs of their presence on the other hand there are groups or individuals whose existence has to be assumed in every historical period even though they are invisible in both historiography and archaeology before trying to understand the lifestyle and historical agency of these invisible cultures it is necessary to highlight the reasons why the memory of certain marginalized individuals or socio cultural units disappeared or was obliterated in material culture and in literary sources the postgraduate conference invisible cultures historical and archaeological perspectives brought together young scholars from various backgrounds and research interests to discuss these issues this volume presents the results of this debate through a series of selected papers from various interdisciplinary perspectives which analyse a variety of case studies leading to the identification of new theoretical and methodological perspectives aimed at returning voice and presence to the invisibles of history

this intellectual biography provides an organic framework for understanding antonio gramsci s process of

intellectual development paying close attention to the historical and intellectual contexts out of which his views emerged the gramsci in notebooks cannot fully account for the young director of l ordine nuovo or for the communist leader gramsci s development did not occur under conditions of intellectual inflexibility of absence of evolution however there is a strong thread connecting the political gramsci with gramsci as a cultivated man the sardinian intellectual s life is marked by the drama of world war i the first mass conflict in which the great scientific discoveries of the previous decades were applied on a large scale and in which millions of peasants and workers were slaughtered in all of his theoretical formulations this dual relation which epitomizes the instrumental use of simpletons by ruling classes goes beyond the military context of the trenches and becomes full fledged in the fundamental relations of modern capitalist society in contrast with this notion of social hierarchy which is deemed natural and unchangeable gramsci constantly affirmed the need to overcome the historically determined rupture between intellectual and manual functions due to which the existence of a priesthood or of a separate caste of specialists in politics and in knowledge is made necessary it is not the specific professional activity whether material or immaterial that determines the essence of human nature to gramsci all men are philosophers in this passage from notebooks we find the condensed form of his idea of human emancipation which is the historical need for an intellectual and moral reform the subversion of traditional relations between rulers and ruled and the end of exploitation of man by man

why do gods persist in contemporary society religious revival and vitality all over the world contradict the vision of continuing declining of belief this linear process of eclipse of the sacred in modern society has been proved wrong religion indeed is an expert system competent in ultimate meanings of human being and social order enzo pace argues that religion persists as a symbol because of its intrinsic power of communication in its will to wield the power to dominate the event of death and to build a bridge between the visible and the invisible the crucial passage from living word to holy scripture is a fundamental device in the construction of a system of religious belief this book provides an insight on a new approach to religious studies drawing from systems theory to consider religion as a means of communication and offering a critical alternative to the secularization theory to explain why religion persists in modernity
