account of the history of the boni maroons aluku maroons of surinam and french guiana from about 1730 until 1860 based on archival data oral history and the literature the author paints an overall picture of this interesting maroon history of guerilla warfare slave resistance and rebellion following the loss of the css arkansas in early august 1862 union and confederate eyes turned to the yazoo river which formed the developing northern flank for the south s fortress at vicksburg mississippi for much of the next year federal efforts to capture the citadel focused on possession of that stream huge battles and mighty expeditions were launched chickasaw bayou yazoo pass steele s bayou from that direction but the city guarded by stout defenses swamps and motivated defenders could not be turned finally union troops ran down the mississippi and came up from the south and the river defenses and the bastion itself were taken from the east from july 1863 to august 1864 sporadic confederate resistance necessitated continued federal attention this book recounts the whole story in the trenches at petersburg the final volume of earl j hess s trilogy of works on the fortifications of the civil war recounts the strategic and tactical operations around petersburg during the last ten months of the civil war hess covers all aspects of the petersburg campaign from important engagements that punctuated the long months of siege to mining and countermining operations the fashioning of wire entanglements and the laying of torpedo fields to impede attacks and the construction of underground shelters to protect the men manning the works in the trenches at petersburg humanizes the experience of the soldiers working in the fortifications and reveals the human cost of trench warfare in the waning days of the struggle the beloved author of posted and ms bixby s last day returns with the first book in a coming of age sci fi duology about leo a kid trying to navigate the galaxy in order to save his family and possibly the planet earth when scientists discover a rare and mysterious mineral buried in the earth s crust they have no idea that it just happens to be the most valuable substance in the entire universe it s not long before aliens show up to our little corner of the galaxy offering a promise of protection some fabulous new technology and entry into their intergalactic coalition all in exchange for this precious resource a material so precious that other alien forces are willing to start a war over it a war that soon makes its way to earth leo knows this all too well his mother was killed in one such attack and soon after his father a coalition scientist decides it would be best for them to leave earth behind it s on this expedition that their ship is attacked leo s father is kidnapped and leo and his brother are stranded in the middle of space the only chance they have is for leo to stow away on a strange ship of mercenary space pirates bound for who knows where and beg the captain to help him find his father but the road is dangerous and pirates of course only look out for themselves leo must decide who to trust as he tries to stay alive and save his family even as he comes to understand that there aren t many people human or alien that he can count on in this brave new universe with this book by leslie hunt kite maker for the united states weather bureau and jet your own personalized kites that will fly in all degrees of wind from the most imperceptible breeze to a gale all that you need are some light wood or substitute 2023-02-28 hammer and nails plus the clear concise explanations offered in this book 5716 twenty five basic kites are covered in constructional details standard two stick kites six point stars figural kites such as imps fishermen elephants owls shields compressible flow function table

gas dynamics and jet propulsion comprehensive in sl units more than 50 solved problems
balloon kites tetrahedral kites various kinds of box kites with and without wings
really strong military kites and many other varieties nor are you limited to the
kites that are presented in detail the carefully thought out complete instructions
are meant to encourage you to experiment with more unusual effects since they
explain important points of design and operation that make all kites fly well the
author explains materials and methods quite thoroughly with consideration of
sticks and surface types of glue stringing making composite sticks tails bridles and
many other elements he also gives information on many of the fascinating
accessories and concomitants to kites messengers or elements that move between
ground and kite parachutes time releases special effect releases tandem kites and
kite photography he also explains very clearly the method of getting a kite to fly
reeling and stringing and determining altitude gray lensman by e e smith
published by good press good press publishes a wide range of titles that
encompasses every genre from well known classics literary fiction and non fiction
to forgotten or yet undiscovered gems of world literature we issue the books that
need to be read each good press edition has been meticulously edited and
formatted to boost readability for all e readers and devices our goal is to produce
ebooks that are user friendly and accessible to everyone in a high quality digital
format somewhere among the galaxies is the stronghold of boskone a network of
brilliant space criminals whose hunger for conquest threatens the continued
existence of all known civilisation but where is this stronghold boskonian bases are
scattered across the universe hidden by gigantic thought screens that defy
penetration the best minds in the galactic patrol have tried and failed now it is up
to lensman kim kinnison using his fantastic powers to infiltrate the boskonian
strongholds find the location of the enemy s grand base and smash it forever but
kinnison doesn t know that the power of boskone reaches further than anyone
dreamed into the galactic patrol itself grey lensman is the fourth self contained
novel in e e doc smith s lensman series one of the all time classics of adventurous
galaxy spanning science fiction

Prepare to Become Fictional 1906

well known underwater explorer richie kohler of shadow divers and deep sea
detectives and best publishing company invite you to join the expedition to unravel
the mystery of the last olympian titanic s tragic sister britannic the book gives you
a firsthand account as richie kohler takes readers on the intriguing journey from
the rise of the magnificent olympians to the fateful day in 1916 he then moves
forward in time through multiple expeditions beginning with the great jacques
cousteau who located the ocean liner in 1975 each successive team that risked
their lives uncovered new clues but it was not until 2009 when richie and his dive
partner definitively pinpointed the secret that had eluded them finally in july 2015
richie and a small team attained the goal of documenting their findings that
answered the century old question as to why all the engineering solutions built into
the mighty britannic could not save her from sharing the same fate as titanic
experience the expedition as richie and his team unravel the mystery of the hmhs
britannic with damage to only one compartment the ship should have been able to
stay afloat and yet she sank twice as quickly as did titanic how was that possible
was the hospital ship criminally torpedoed as the british press claimed or did she
ineptly blunder into a minefield as the bismarck government countered violet
jessop survived the sinking of britannic and titanic experience her intriguing story
