2006

most famous for his military marches john philip sousa led a group of devoted musicians around the world and shaped a new cultural landscape this book documents almost every aspect of the march king s band its history its star performers its appearances on recordings and the problems the group faced on their 1911 trip around the world

Corn Flakes with John Lennon

2010-10-12

robert hilburn s storied career as a rock critic has allowed him a behind the scenes look at the lives of some of the most iconic figures of our time he was the only music critic to visit folsom prison with johnny cash he met john lennon during his lost weekend period in los angeles and they became friends bob dylan granted him his only interviews during his born again period and the occasion of his 50th birthday michael jackson invited hilburn to watch cartoons with him in his bedroom when springsteen took to playing only old hits hilburn scolded him for turning his legendary concerts into oldies revues and springsteen changed his set list in this totally unique account of the symbiotic relationship between critic and musical artist hilburn reflects on the ways in which he has changed and been changed by the subjects he s covered bono weighs in with an introduction about how hilburn s criticism influenced and altered his own development as a musician corn flakes with john lennon is more than about one man s adventures in rock and roll it s the gripping and untold story of how popular music reshapes the way we think about the world and helps to define the modern american character

Band in the Wind

a collection of memories by one who played as a young man under john philip sousa in the united states naval training station band at great lakes illinois

Nostalgic Happenings in the Three Bands of John Philip Sousa

1982

the velvet underground and nico has influenced the sound of more bands than any other album and remarkably it still sounds as fresh and challenging today as it did upon its release in 1967 in this book joe harvard covers everything from lou reed s lyrical genius to john cale s groundbreaking instrumentation and from the creative input of andy warhol to the fine details of the recording process with input from co producer norman dolph and velvets fan jonathan richman harvard documents the creation of a record which in the eyes of many has never been matched excerpt in 1966 some studios like abbey road had technicians in white lab coats and even the less formal studios usually had actual engineering graduates behind the consoles studios were still more about science than art clients who dared make technical suggestions were treated with bemusement derision or hostility the velvets were a young band under constant critical attack and the pressure to conform in order to gain acceptance must have been tremendous most bands of that era compromised with their record companies through wholesale revamping of their image from wardrobe to musical style changing or omitting lyrics creating drastically edited versions for radio airplay or eliminating songs entirely from their sets and records with andy warhol in the band s corner such threats were minimized

The Velvet Underground's The Velvet Underground and Nico

2004-03-31

born into a regular bronx family and inspired by the likes of hendrix led zepellin and the kinks ace frehley first picked up his brother s guitar at the age of 12 he had already performed in a number of bands when in january 1973 he auditioned for an ad that read guitarist wanted with flash and balls within a

week he was invited to join the band was kiss frehley explains how the band developed their style in the early days making their own clothes wearing make up and platform shoes ace himself even designed the band s double lightning bolt logo before long his persona the spaceman was born and the familiar kiss look established almost overnight they left behind 1 500 seater theatres in the midwest and were playing sold out stadiums around the world life in kiss was a whirlwind of accidents overdoses and excess ace partied with the likes of john belushi and nic nolte and enjoyed the seemingly endless supply of fringe benefits that came from being in one of the most successful bands in the history of rock n roll but soon problems with substance abuse would lead to his leaving the band in 1982 before returning for a second tenure in 1996 ace in the hole is the story of kiss but much more than that it s the story of a kid from the bronx who found purpose and salvation through music and rose to the top it s the story of a guy who lived life to the fullest and almost forfeited his life as a result and ultimately it s a survival story ace is alive and kicking still making music and influencing a new generation of guitarists

No Regrets

2011

fifteen piece swinging dance bands swept the country in popularity during the big band era of 1935 1946 the only time in america s history to date when jazz was the most popular form of music this book provides detailed profiles many based on personal interviews of the era s bandleaders musicians vocalists arrangers and contributors publisher s information

When Swing was the Thing

2008

this book provides an introduction to band theory and the electronic properties of materials at a level suitable for final year undergraduates or first year graduate students it sets out to provide the vocabulary and quantum mechanical training necessary to understand the electronic optical and structural properties of the materials met in science and technology and describes some of the experimental techniques which are used to study band structure today in order to leave space for recent developments the drude model and the introduction of quantum statistics are treated synoptically however bloch s theorem and two tractable limits a very weak periodic potential and the tight binding model are developed rigorously and in three dimensions having introduced the ideas of bands effective masses and holes semiconductor and metals are treated in some detail along with the newer ideas of artificial structures such as super lattices and quantum wells layered organic substances and oxides some recent hot topics in research are covered e g the fractional quantum hall effect and nano devices which can be understood using the techniques developed in the book in illustrating examples of e g the de haas

van alphen effect the book focuses on recent experimental data showing that the field is a vibrant and exciting one references to many recent review articles are provided so that the student can conduct research into a chosen topic at a deeper level several appendices treating topics such as phonons and crystal structure make the book self contained introduction to the fundamentals of band theory and electronic properties in condensed matter physic today

Band Theory and Electronic Properties of Solids

2001-08-30

liverpool s dynamic music scene gave the world the beatles what city could hope to follow that but 12 years later in 1974 lightning nearly struck twice deaf school were a band formed in john lennon s old art college rehearsing in the very same rooms with their chaotic and wildly entertaining brand of rock cabaret deaf school were tipped for instant stardom and signed up by warner brothers in california but suddenly with the world at their feet deaf school were swept aside by britain s punk rock revolution a great band said the sex pistols manager malcolm mclaren but it s just as bad being too early as too late though their hopes were dashed the band has never surrendered and 40 years on deaf school s influence is acknowledged by british bands from madness to dexters midnight runners their reunion shows still madly glamorous and eccentric are tribal gatherings for a fanbase that never forgot them the band s first full length biography is written by british music writer paul du noyer a follower since deaf school s early days in liverpool deaf school are such a delicious secret he says it s almost a shame to reveal it

Deaf School

2013-10-21

john michalak and dan cull owners of gorilla music have over 40 years of real life experience in the music business and have worked with close to 100 000 bands 100 000 bands is an incredible number this astounding experience that has given the authors unsurpassed knowledge on every facet of the music industry knowledge that they in turn are passing along here in their book rock your city rock your city is the first music book to explain what it really takes to get to the top of the music business find out here if your band is doing things wrong like playing too many shows or writing songs that lack the ability to get the industries attention

America's Music Makers

2011-03

hold on world revisits lennon and ono s love affair and startling collaborations john lennon s plastic ono band was arguably the most emotionally

honest album ever made it wasn't merely another record but more like a sonic exorcism a spiritual public bloodletting lennon's album drove a stake through the heart of the beatles myth while confronting everything else in john's life from dylan to god to his glorified status as a working class hero determined to rid himself of past traumas abandonment by his father and the death of his mother julia lennon wrote the most powerful song cycle of his career confronting fear disappointment and illusion all the while espousing his love for yoko ono released simultaneously ono's album yoko ono plastic ono band is emotionally raw and challenging it inspired bands like the b 52s and yo la tengo to employ pure sound whether shrieking vocals or guitar feedback to express their deepest feelings

it s all about the music welcome to another in the legends of rock roll series this is like the others a mini biography of one the greatest of american performers and bands bruce springsteen and the e street band come with me for a walk down memory lane as i review the life of bruce springsteen and especially the music that he produced we ll visit each of his hits and find out how they came to be written or how they were recorded and discuss any trivia that might be associated with the music this book is about the man and the band but even more importantly it s about the music this series is my way of honoring the people that have brought so much joy to our lives over the years it is an unauthorized fan tribute bruce springsteen has been writing and performing since the late sixties starting out as most performers and song writers do by writing and playing wherever and whenever he could he was the member of several bands before putting together what is arguably the best band in the business the e street band success did not come immediately to bruce springsteen the break though came in 1975 with a rocker called born to run from then on everyone took bruce seriously the chapters include introduction my remembrances of bruce springsteen in general and a kick off for the book early life a brief summary of his life before the music started making music his life how did bruce get started in the business asbury park this is where bruce got his start first album was the first one a success the second one born to run after this album everyone took him seriously darkness on the edge of town he followed up with another classic the river this was his first number one album but certainly not his last born in the u s a the album that would truly make him a legend how many singles did the album produce patti scialfa love and marriage was not an easy road for bruce live 1975 85 the first box set in the history of the charts to debut at number one disbanding the e street band bruce goes it alone at least for a little while bringing them back together in 1999 bruce brought the e street band back together again and they did a reunion tour politics for the first time bruce got behind a candidate for president john kerry supporting barack obama continuing his support of democratic candidates he is firmly behind obama in 2008 e street band a mini tribute to the members of the band both past and present legacy of bruce springsteen every legends book has a legacy section where we review the awards and contributions of the artist afterword my closing thoughts grammy awards a list of the grammy awards won by bruce and the band discography a list of the major albums and singles by bruce springsteen

Official Gazette of the United States Patent Office

1879

in september 1968 four english lads gathered together for the first time in a small stuffy london rehearsal room in a basement filled with wall to wall

amplifiers it was their first big tryout as musicians and each of them was nervous would they come together as a band or would they crash and burn becoming nothing but a rock footnote then the room exploded with wailing chords howling vocals and a locked tight rhythm section a sonic assault of heretofore unknown power here for the first time was led zeppelin the screaming rock guitar of jimmy page the scorching blues vocals of robert plant the driving jazz bass of john paul jones and the power drumming of john bonham the session was amazing electrifying and stunning the zepp had arrived there was no turning back and rock entertainment would never be the same again told by the band the musicians the groupies and the fans themselves this chronicle of one of rock's greatest and most innovative bands comes alive with the hiss of turntables the sweat of the crowd at the fillmore east the hustle and bustle of backstage life and the electricity of small clubs where rock history was about to be made it's a story about a band's influence on two impressionable guys and the countless others who came to get the led out and stayed to become part of rock n roll legend with exclusive and rare photos
