sometimes life is like a movie there are moments and events in life not often that are as exciting and as dramatic as a movie what happened in lake placid new york in february 1980 at the thirteenth winter olympics was such a time for those who experienced it in person or watched the games on television they remember where they were when the us hockey team beat the soviet union and then beat the team from finland two days later to win the gold medal the sports victory of an underdog group of college kids was thrilling enough but it was a win against the soviet union this cold war adversary was also the nation hosting the summer

games later that year which the united states was threatening to boycott the excitement and drama in lake placid gave the games a huge lift of enthusiasm and popularity when some had even come to believe that staging the olympics was no longer affordable for many communities and that perhaps the 1980 winter games should be cancelled entirely indeed as the games began a us news and world report magazine questioned whether the lake placid games were the last olympics what happened on the hockey ice was improbable enough but the lake placid winter games were a long shot if not a miracle too winning the games had been an unlikely decades long quest for this small town to overcome the barriers of exploding finances environmental concerns and world politics few remember that the 1980 games were never supposed to take place in lake placid they came to the small village because of unexpected events which unfolded and made the two weeks in the remote adirondacks before a worldwide audience of nearly a billion viewers one of the most dramatic times in the modern era of sports media and politics it would not be too much of a stretch to say that the lake placid games which brought the miracle on ice saved the winter olympics in 1980 and greatly enhanced them for the future

the second volume in his autobiographical quartet based on the seasons winter is an achingly beautiful collection of daily meditations and letters addressed directly to knausgaard s unborn daughter 2 december it is strange that you exist but that you don t know anything about what the world looks like it s strange that there is a first time to see the sky a first time to see the sun a first time to feel the air against one s skin it s strange that there is a first time to see a face a tree a lamp pajamas a shoe in my life it almost never happens anymore but soon it will in just a few months i will see you for the first time in winter we rejoin the

great karl ove knausgaard as he waits for the birth of his daughter in preparation for her arrival he takes stock of the world seeing it as if for the first time in his inimitably sensitive style he writes about the moon water messiness owls birthdays to name just a handful of his subjects these oh so familiar objects and ideas he fills with new meaning taking nothing for granted or as given new life is on the horizon but the earth is also in hibernation waiting for the warmer weather to return and so a contradictory melancholy inflects his gaze startling compassionate and exquisitely beautiful knausgaard s writing is like nothing else somehow he shows the world as it really is at once mundane and sublime

the question of the original home of the arjans and their migrations to india is only part of the problem of their elusiveness their subsequent assimilation and nativization in india also contributed to this elusive quality this socio cultural process can be traced through a study of their gods rituals and philosophy thus changes in the nature and function of Ṛgvedic gods the appearance of upstart gods in the late Ṛgvedic period the elaboration of the soma ritual with elaborate supplementary rituals the introduction of the new ritual of agnicayana the rise of the eschatology of punarjanma rebirth and saṃsāra eternal return based on karma and the ideal of mukti or liberation from life in place of the former ideal of a life of āraḍa ātama a hundred autumns are symptoms of as well as a witness to the transformation of the original identity of the arjans as revealed in the family books of the Ṛgveda this cultural transformation is no less significant than the yakṣa prākṣa knotty question of their original home and their indubitable archaeological traces the book addresses itself to both these questions and for that purpose takes another look at some of the archaeological material and arjan life and thought as reflected in vedic literature
