channel pilot has been the ultimate authority on english channel navigation and pilotage following the pioneering work of the legendary adlard coles the book was passed to captain john coote rn in 1982 in his comparatively short ten year tenure john coote expanded the coverage from the english coast to include northern france he also applied a characteristic humour to the shoreside aspect of the text which has been enthusiastically

adopted by tom cunliffe the present and third compiler of this unique work upgraded and updated regularly this is the 8th edition published by imray under cunliffe s hand shell is more than a harbour guide it also provides a reassuring hand on the shoulder for channel navigation with useful passage notes gleaned from the compiler s personal experience of more than 40 years running the tides and finding the eddies his frank remarks regarding harbour and recreational facilities have long been relied upon by sailors of all generations and nationalities while leading to some enlightening secrets they have been known to cause landlords whose establishments fall short of the required standard to lose the will to live working with harbourmasters and a dedicated group of carefully selected yachtsmen and women cunliffe has kept this pilot as up to date as is humanly possible more than being technically sound which is to be expected from a yachtmaster examiner the book is also a thoroughly enjoyable read condemned building is one of our most requested out of print books so we ve done a special limited edition reprint only 750 copies to meet the ongoing demand for this book not long after this book was published the only one on the work of this gifted architect and delineator doug died of leukemia fans and friends including legions of students quickly bought up the remaining copies and the difficulty of finding this book has undoubtedly only increased its appeal doug said that these projects were the underbelly of canonical architectural principles and forms and indeed many are dark brooding or sexual in nature a kamasutra with the negative the book covers ten projects in model drawing and psychoanalytical text douglas darden taught at harvard columbia and most recently the university of colorado at denver he was a fellow of the american academy in rome he is sorely missed but we re happy to be able to offer his book once again winner of the pulitzer surfing only looks like a sport to devotees it is something else entirely a beautiful addiction a mental and physical study a passionate way of life new yorker writer william finnegan first started surfing as a young boy in california and hawaii barbarian days is his immersive memoir of a life spent travelling the world chasing waves through the south pacific australia asia africa and beyond finnegan describes the edgy yet enduring brotherhood forged among the swell of the surf and recalling his own apprenticeship to the world s most famous and challenging waves he considers the intense relationship formed between man board and water barbarian days is an old school adventure story a social history an extraordinary exploration of one man s gradual mastering of an exacting and little understood art it is a memoir of dangerous obsession and enchantment reading this guy on the subject of waves and water is like reading hemingway on bullfighting william burroughs on controlled substances updike on adultery a coming of age story seen through the gloss resin coat of a surfboard sports illustrated the nation state of trinidad and tobago offers a unique case for the study of the forces and ideologies of nationalism this book reveals how this ethnically diverse nation 40 african origin 40 45 east indian origin plus those of syrian chinese portuguese french and english descent independent for less than forty years has provided fertile ground for the creative tension between the imagination of the writer in his or her search for a habitable text of identity and the official discourse on nationalism in trinidad and tobago this discourse has in turn been embedded in a struggle that propels the nation s story following on from this background the study examines the changes and influences on the sense of nationalism and peoplehood caused by migration and the ethnicization of migrant communities in the metropolises throughout her 20 year career neri oxman has invented not only new ideas for materials buildings and construction processes but also new frameworks for interdisciplinary and interspecies collaborations she coined the term material ecology to describe her process of producing techniques and objects informed by the structural systemic and aesthetic wisdom of nature groundbreaking for its solid technological and scientific basis its rigorous and daring experimentation its visionary philosophy and its unquestionable attention to formal elegance oxman s work operates at the intersection of biology engineering architecture and artistic design material science and computer science 0this book designed by irma boom and published to accompany a midcareer retrospective of oxman s work highlights the interdisciplinary nature of the designer s practice it demonstrates how oxman s contributions allow us to question and redefine the idea of modernism a concept in constant evolution and of organic design some of the projects featured in the book and exhibition include the silk pavilion which harnesses silkworms ability to generate a 3 d cocoon out of a single thread silk in order to create architectural constructions
