**Quiet Riot** 1985 quiet riot offers an anthropological critique of teaching and learning in two u s high schools over a twenty seven year period based on the author s experiences shadowing two average students in 1983 and 2009 it presents detailed observations that powerfully capture the reality of student experiences in school despite many changes in schools over this near thirty year period observations show a remarkable continuity in what goes on in classrooms this is because the culture of teaching and learning in classrooms has remained relatively unchanged while teachers are sincere they also undermine their own efforts in a variety of ways students are disengaged not because they do not care but because the instruction they receive systematically prevents them from engaging at a deep intellectual level with subject matter observations in high schools are supplemented with elementary school observations that demonstrate the early trajectories of disengagement that capture many students the book illustrates the powerful patterning of the culture of teaching and learning in schooling that undermines the true goals of an authentic education

**The Big Book of Hair Metal** 2014-08-15 tracing the conception of a child through to her birth quiet orient riot addresses birth regimes and the politics of reproduction unspooling the many ways that liturgical commands and an intense demographic anxiety affect a journey towards motherhood through these poems nathalie khankan considers what it means to bear a palestinian child in the occupied palestinian territory particularly with a pregnancy enabled through contingent access to israel s sophisticated fertility treatment infrastructure the poems confront questions of how to be a national vessel and to bear a body whose very creation is enabled by the pronatalist state yet not recognized by it while quiet orient riot chronicles a journey that is specific and localized the larger questions that emerge from these poems reach beyond this particular story the book asks questions of itself wondering what kind of language may hold precarious life and what kind of poem may see an unborn body through emergency diminishment and into blossoming through the trials of pregnancy and birth demographic and religious imperatives these poems are concerned with many kinds of worship they bow to a chirpy printed sound what grows in the rubble and the capacity for happiness despite visual evidence wherever you look there are water holes for the thirsty and a grove of little justices
