with her trademark passion intelligence and devastating wit huffington post editor in chief arianna huffington tackles the issues that are crucial to this year s presidential election and even more so to the fate of the country huffington makes the case that america has been hijacked from within by a radical element the lunatic fringe of the right that has taken over the republican party despite holding views at odds with the majority of americans these zealots have given us an endless war in iraq a sputtering economy a health care system on life support a war on science and reason and an immoral embrace of torture but they haven t done it on their own they have been enabled by a compliant media that act as if there is no such thing as truth and are more interested in cozying up to those in power than in holding them accountable and by feckless democrats who have allowed themselves to be intimidated into backing down again and again both a withering indictment and a hopeful call to arms right is wrong is an explosive boldly incisive work that will help set the national agenda

erich von daniken again shows his flair for revealing the truths that his contemporaries have missed after closely analyzing hundreds of ancient and apparently unrelated texts he is now ready to proclaim that human history is nothing like the world religions claim and he has the proof in history is wrong erich von daniken takes a closer look at the fascinating voynich manuscript which has defied all attempts at decryption since its discovery and makes some fascinating revelations about the equally incredible book of enoch von daniken also unearths the intriguing story of a lost subterranean labyrinth in ecuador that is said to be home to an extensive library of thousands of gold panels he supplies evidence that the metal library not only has links to the book of enoch but also to the mormons who have spent decades searching for it believing it to contain the history of their forefathers and what about the mysterious lines in the desert of nazca that look like landing strips when viewed from the air archeologists claim they are ancient procession routes think again cries von daniken as he reveals the data that the archeologists never even thought to check history is wrong will challenge your intellect and maybe a few long held beliefs this is erich von daniken s best book in years

examine the merits of liberalism and conservatism in this analytical work written by a longtime student of politics author stephen schade the son of a staunch republican and a frequent contributor to political blogs explores the two schools of thought from political social historical and economic perspectives he builds upon the observations of historians before making conclusions he explains how political cycles change every thirty years recessions coincide with conservatives being in power liberals are more effective than conservatives and conservative policies hurt most americans schade also considers important financial concepts such as stagflation inflation and stock market dynamics discover how time after time actions by conservatives have devastated the financial markets american

companies and the lives of hardworking people meanwhile the actions of liberals such as taking the country off the gold standard establishing social security and funding various social programs have helped the nation considering many issues from an informed vantage point schade seeks to ask the right questions and to answer them with care proving that right is wrong

How Terrorism Is Wrong

2011-03-04

what is terrorism how is it different from other kinds of political violence why exactly is it wrong why is war often thought capable of being justified on what grounds should we judge when the use of violence is morally acceptable it is often thought that using violence to uphold and enforce the rule of law can be justified that violence used in self defense is acceptable and that some liberation movements can be excused for using violence but that terrorism is always wrong how persuasive are these arguments and on what bases should we judge them how terrorism is wrong collects articles by virginia held along with much new material it offers a moral assessment of various forms of political violence with terrorism the focus of much of the discussion here and throughout held examines possible causes discussed including the connection between terrorism and humiliation held also considers military intervention conventional war intervention to protect human rights violence to prevent political change and the status and requirements of international law she looks at the cases of rwanda kosovo iraq and the israeli palestinian conflict finally she explores questions of who has legitimate authority to engage in justifiable uses of violence whether groups can be responsible for ethnic violence and how the media should cover terrorism held discusses appropriate ways of engaging in moral evaluation and improving our moral recommendations concerning the uses of violence just war theory has been developed for violence between the military forces of conflicting states but much contemporary political violence is not of this kind held considers the guidance offered by such traditional moral theories as kantian ethics and utilitarianism and also examines what the newer approach of the ethics of care can contribute to our evaluations of violence care is obviously antithetical to violence since violence destroys what care takes pains to build but the ethics of care recognizes that violence is not likely to disappear from human affairs and can offer realistic understandings of how best to reduce it

the origin of life particularly human life is one of today s most intensely debated subjects ironically that debate has only two socially acceptable sides darwinism and creationism darwinists support the

detailed observations and speculations of a brilliant naturalist while creationists support the various interpreters of the bible s scriptural teachings despite the passion and intellect exhibited by both sides as they defend their positions millions of people remain unconvinced by the arguments of either for those individuals it is time to present a viable comprehensive third option rationalism which is the formation of ideas and opinions based on evidence and reasoning rather than on secular authority or divine revelation everything you know is wrong stakes out a solid defendable entirely new position in the debate about life origins and human origins that position is bolstered by an astonishing array of scientific facts either unmentioned or conspicuously ignored by the two currently entrenched camps by utilizing such a fact based format this book s presentation of rationalism offers a far more convincing explanation for the origins of life and particularly of human life than darwinism or creationism ever have or ever will

this is a book about the one objective truth of existence and the countless subjective falsehoods accepted as true by the vast majority of humanity this book focuses especially on new age guru ken wilber s fallacious system known as integral theory his theory of everything where he attempts to place a wide diversity of mystical theories and the teachings of various gurus into a single framework that supposedly explains everything wilber s system is best summed up in his statement i have one major rule everybody is right more specifically everybody including me has some important pieces of truth and all of those pieces need to be honored cherished and included in a more gracious spacious and compassionate embrace it is exactly this sentiment that underlies the new age hegemony of relativism and subjectivism of everyone having their own experiences their own path their own truth in such a system it becomes impossible for people to reach the one absolute objective truth of existence which grounds everything in order to reach the truth the task is not to pretend to people that they are all right but to show where they have gone wrong where they have strayed from reason and logic where they have succumbed to irrationalism via emotionalism sensory empiricism faith and mysticism wilber adopts a fully irrationalist stance when he claims that the enlightened are what he calls trans rational i e they have somehow transcended reason and logic and thus reached the zone according to wilber where they can apprehend absolute reality in fact absolute reality insofar as it is intelligible is nothing but the expression of the principle of sufficient reason and its corollary occam s razor how do we eliminate the infinite wrong answers to existence and reach the one infallible right answer to existence it s simplicity itself the answer to existence is the simplest and most rational possible any answer that is not rational is irrational hence false any answer that is not the simplest is wrong because reality would never privilege complexity over simplicity reality necessarily follows the path of least resistance the most economic path it does not know how to introduce superfluous needless and pointless complexity you will never understand the answer to existence if the answer you support is against rationalism and against rational simplicity
