General Ashcroft

2006

reviled as a fascist and zealot by libertarians and liberals but praised as a great patriot and devout man of god by many conservatives john ashcroft may have been the most powerful and polarizing attorney general in our nation s history looking past such oversimplified stereotypes nancy baker offers the first in depth study of ashcroft s controversial tenure as attorney general and as domestic commander in our campaign against global terrorism addressing new concerns about challenges to civil liberties in the wake of 9 11 baker provides a critical assessment of ashcroft s impact on national life within the context of an enormous expansion of presidential power baker depicts a man who even before 9 11 was in search of a mission and then found it in the war on terror she explores how ashcroft s counterterrorism actions eroded checks on executive power arguing that the attorney general used both the formal and informal powers of his office to expand executive and law enforcement authority and did so at the additional expense of criminal procedural rights privacy rights and government transparency baker tells how the war against terrorism the unique legal policy role of the attorney general and ashcroft s presence in that office dramatically expanded the power and impact of executive power in domestic affairs she identifies ashcroft s rhetorical tactics that set his actions at odds with the public interest such as browbeating critics and marginalizing dissent and challenges the success claimed by ashcroft and his supporters in safeguarding america by documenting the justice department s lack of effectiveness in key prosecutions she also includes an enlightening analysis of the patriot act and its implications for both civil liberties and government power by documenting the ongoing importance of ashcroft s legacy a legacy now continued by alberto gonzalez baker shows how he dramatically changed the office and disrupted our constitutional system of divided and checked powers her close scrutiny of ashcroft s actions vividly highlights the role that an attorney general can play in shaping presidential power during national crises and provides a cautionary tale for anyone eager to protect our civil liberties

Handbook of Adult Psychopathology in Asians

2012-05-07

the handbook of adult psychopathology in asians represents a historically remarkable global collaboration among leading experts of psychopathology in asian adults chapters provide critical appraisals of existing research and theory as they relate to issues surrounding the diagnosis etiology and treatment of major mental disorders among asians this volume covers major axis i disorders as identified by the diagnostic statistical manual of mental disorders including mood disorders anxiety disorders substance use disorders somatoform disorders dissociative disorders eating disorders sleep disorders adjustment disorders and schizophrenia and other psychotic disorders in addition the book provides coverage of axis ii personality disorders including antisocial personality disorder complementing these topics are chapters that take a unique look at psychiatric syndromes that have been identified in asia and at interventions that have been indigenously developed in asia for treating mental disorders additional foundational chapters focus on topics such as the psychology of asians assessment and research issues in studying asians and future directions for research and policy in studying and treating asians with mental disorders with this volume in hand mental health professionals and researchers around the world now have a single and critical resource that they can use to enhance their efforts in studying and treating asian adults with mental disorders

2002

the first critical study to be published on mughal pictorial hybridity this book investigates the workings of the diverse creative forces that underpinned the formation of the mughal painting valerie gonzalez here explores with the updated methodology of art criticism the processes of cross fertilization between the indo persianate legacy the persian models imported after 1555 and the influx of european art that have brought about a unique indo islamic pictorial metaphysics characterized by a positivist mimetic order distinct from the idealistic persian pictoriality

Credit Constraints and Investment in Latin America

2003

employees with valuable skills and a sense of their own worth can make their jobs pay perks and career opportunities different from those of their coworkers in subtle and not so subtle ways work at home arrangements flexible hours special projects personally negotiated arrangements like these can be a valuable source of flexibility and personal satisfaction but at the risk of creating inequality and resentment by other employees this book shows how such individual arrangements can be made fair and acceptable to coworkers and beneficial to both the employee and the employer written by the world s leading expert on the subject i deals idiosyncratic deals employees bargain for themselves challenges traditional notions that standardization is the way to create workplace justice the book is filled with real examples cases and supporting data it expands conventional ideas of workplace fairness provides details on the power that workers influence over their employment conditions and spells out how employees and employers can channel this influence into mutually beneficial innovations the book is must reading for students and scholars in the fields of human resource management and organizational behavior and for managers and employees everywhere

Aesthetic Hybridity in Mughal Painting, 1526–1658

2015-11-28

based on the premise that terrorism is essentially a message terrorism and communication a critical introduction examines terrorism from a communication perspective making it the first text to offer a complete picture of the role of communication in terrorist activity through the extensive examination of state of the art research on terrorism as well as recent case studies and speech excerpts communication and terrorism scholar jonathan matusitz explores the ways that terrorists communicate messages through actions and discourse using a multifaceted approach he draws valuable insights from relevant disciplines including mass communication political communication and visual communication as he illustrates the key role that media outlets play in communicating terrorists objectives and examines the role of global communication channels in both spreading and combating terrorism this is an essential introduction to understanding what terrorism is how it functions primarily through communication how we talk about it and how we prevent it
