**The Nek** 1892 john t hogan s the tragedy of the athenian ideal in thucydides and plato assesses the roles of pericles alciabiades and nicias in athens defeat in thucydides peloponnesian war comparing thucydides presentation of political leadership with ideas in plato s statesman as well as laches charmides meno symposium republic phaedo sophist and laws it concludes that plato and thucydides reveal pericles as lacking the political discipline sophrosune to plan a successful war against sparta hogan argues that in his presentation of the collapse in the corcyraean revolution of moral standards in political discourse thucydides shows how revolution destroys the morality implied in basic personal and political language this reveals a general collapse in underlying prudential measurements needed for sound moral judgment furthermore hogan argues that the statesman s outline of the political leader serves as a paradigm for understanding the weaknesses of pericles alciabiades and nicias in terms that parallel thucydides direct and implied conclusions which in pericles case he highlights with dramatic irony hogan shows that pericles failed both to develop a sufficiently robust practice of athenian democratic rule and to set up a viable system for succession

**The Tragedy of the Caesars** 1849 an analysis of how responsive governance has shaped the evolution of global fisheries in cyclical patterns of depletion and rebuilding dubbed the management treadmill the oceans are heavily overfished and the greatest challenges to effective fisheries management are not technical but political and economic in this book d g webster describes how the political economy of fisheries has evolved and highlights patterns that are linked to sustainable transitions in specific fisheries grounded in the concept of responsive governance webster s interdisciplinary analysis goes beyond the conventional view of the tragedy of the commons using her action cycle structural context framework she maps long running patterns that cycle between depletion and rebuilding in a process that she terms the management treadmill webster documents the management treadmill in settings that range from small coastal fishing communities to international fisheries that span entire oceans she identifies the profit disconnect in which economic incentives are out of sync with sustainable use and the power disconnect in which those who experience the costs of overexploitation are politically marginalized she examines how these disconnects shaped the economics of expansion and documents how political systems failed to prevent related cycles of serial resource depletion webster also traces the increasing use of restrictive management in response to worsening fisheries crises and the emergence of new noncommercial interests that demand greater management but also generate substantial conflict she finds that the management treadmill is speeding up with population growth and economic development and so concludes that sustainable fisheries can only exist within a sustainable global economic system

**The Theatre of the Greeks** 1878 this history is a war story of astonishing courage and honor of stupidity of blood death agony and waste nothing in british campaign history has ever equaled the tragic farce that was the charge of the light brigade during the crimean war s battle of balaclava on october 25 1854 in this fascinating study cecil woodham smith shows that responsibility for the fatal mismanagement of the affair rested with the earls of cardigan and lucan brothers in law and sworn enemies for more than thirty years in revealing the combination of pride and obstinacy that was to prove so fatal woodham smith gives us a picture of a vanished world in which heroism and military glory guaranteed an immortality impossible in a more cynical age

**The Tragedy of Hamlet, Prince of Denmark** 2020-07-15 this is a book of hope at a time when just about

everyone but marvin alasky has lost hope the topic is poverty and the underclass the profound truth that marvin alasky forces us to confront is that the problems of the underclass are not caused by poverty some of them are exacerbated by poverty but we know that they need not be caused by poverty for poverty has been the condition of the vast majority of human communities since the dawn of history and they have for the most part been communities of stable families nurtured children and low crime it is wrong to think that writing checks will end the problems of the underclass or even reduce them preface

*The Tragedy Rhesus* 1991-07-01 the most tragic of the poets aristotle euripides was one of the most popular and controversial of all greek tragedians and his plays are marked by an independence of thought ingenious dramatic devices and a subtle variety of register and mood he is also remarkable for the prominence he gave to female characters whether heroines of virtue or vice in the ethically shocking medea the first known child killing mother in greek myth to perform the deed in cold blood manipulates her world in order to wreak vengeance on her treacherous husband hippolytus sees phaedra s confession of her passion for her stepson herald disaster while electra s heroine helps her brother murder their mother in an act that mingles justice and sin lastly lighter in tone the satyr drama helen is an exploration of the impossibility of certitude as brilliantly paradoxical as the three famous tragedies this new translation does full justice to euripides s range of tone and gift for narrative a lucid introduction provides substantial analysis of each play complete with vital explanations of the traditions and background to euripides s world about the series for over 100 years oxford world s classics has made available the widest range of literature from around the globe each affordable volume reflects oxford s commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

**The Reason Why** 1896 hölderlin 1770 1843 is the magnificent writer whom nietzsche called my favourite poet his writings and poetry have been formative throughout the twentieth century and as influential as those of hegel his friend at the same time his madness has made his poetry infinitely complex as it engages with tragedy and irreconcilable breakdown both political and personal with anger and with mourning this study gives a detailed approach to hölderlin s writings on greek tragedy especially sophocles whom he translated into german and gives close attention to his poetry which is never far from an engagement with tragedy hölderlin s writings always fascinating enable a consideration of the various meanings of tragedy and provide a new

reading of shakespeare particularly julius caesar hamlet and macbeth the work proceeds by opening into discussion of nietzsche especially the birth of tragedy since hölderlin was such a decisive figure for modernism to say nothing of modern germany he matters intensely to such differing theorists and philosophers as walter benjamin theodor adorno martin heidegger maurice blanchot and jacques derrida all of whose views are discussed herein drawing upon the insights of hegelian philosophy and psychoanalysis this book gives the english speaking reader ready access to a magnificent body of poetry and to the poet as a theorist of tragedy and of madness hölderlin s poetry is quoted freely with translations and commentary provided this book is the first major account of hölderlin in english to offer the student and general reader a critical account of a vital body of work which matters to any study of poetry and to all who are interested in poetry s relationships to madness it is essential reading in the understanding of how tragedy pervades literature and politics and how tragedy has been regarded and written about from hegel to walter benjamin
