Shetland Pony Stud-book 1907 the exuberant exhilarating photographs of dogs underwater that have become a sensation from the water s surface it s a simple exercise a dog s leap a splash and then a wet head surfacing with a ball triumphant but beneath the water is a chaotic ballet of bared teeth and bubbles paddling paws fur and ears billowing in the currents from leaping lab to diving dachshund the water is where a dog s distinct personality shines through some lounge in the

current paddling slowly but others arch their bodies to cut through the water with the focus and determination of a shark in more than eighty portraits award winning pet photographer and animal rights activist seth casteel captures new sides of our old friends with vibrant underwater photography that makes it impossible to look away each image bubbles with exuberance and life a striking reminder that even in the most loveable and domesticated dog there are more primal forces at work in underwater dogs seth casteel gives playful and energetic testament to the rough and tumble joy that our dogs bring into our lives
