Perkins Activity and Resource Guide Chapter 1 -Teaching Children with Multiple Disabilities

1912-08-02

as a result of the covid 19 pandemic most schools had to suddenly shift from traditional face to face courses to blended synchronous and asynchronous instructional environments the impact upon the immediacy of remote learning was overwhelming to many faculty instructional facilitators teachers and trainers many faculty and trainers have experience with the analysis design development implementation and evaluation of online and blended learning environments while many faculty and trainers also do not have this knowledge nor experience as such the collegial workspace has developed into a collaborative work environment wherein the faculty are helping faculty partially because the instructional designer staff and learning advisors are overwhelmed with the number of course projects

that must be moved from traditional face to face course environments into an online environment within a short period of time the faculty are helping each other make this move offering course design and development support and also instructional tips and tricks that will support successful blended and online experiences that enhance learning outcomes shifting to online learning through faculty collaborative support focuses on supporting and enhancing blended and distance learning course design and development successful tips for course design and teaching techniques for online learning and embracing collegial mentorship and facilitative support for course and faculty success this book highlights the strength of collegial bonds while discussing tools methods procedural efforts styles of engagement learning theories assessment efforts and even social learning engagement implementations in online learning it provides information and lessons and embraces a long term approach towards understanding institutional impact and collegial support this book is valuable for school administrators teachers course designers instructional designers school faculty business and administrative leadership practitioners stakeholders researchers academicians and students interested in how faculty collaborative support is playing a critical role in improving and developing successful online learning

Indigenous America in the Spanish Language Classroom

2023

teaching materials and the roles of efl esl teachers is published amidst a decade long increase in academic publications and training courses concerned with the evaluation and design of english language teaching materials it is timely to consider what effect the advice on offer has had on teachers practice are teachers evaluating materials carefully using

textbooks in the ways expected by textbook writers developing their own materials and mediating between materials and learners in the ways advised in the professional literature the book explores these issues from a variety of perspectives the views of publishers textbook writers those contributing to the professional literature and teacher educators are synthesised to establish a theory of how teachers can best fulfil their roles vis à vis materials and learners this is then compared with practice as represented by published accounts of teachers actual practices and learners perspectives the conclusion reached is that teacher education in materials evaluation and design is essential and suggestions are offered as to the form this might take the book is intended particularly for ma students and teacher educators concerned with materials evaluation and design but is of interest to all those concerned with the publication and use of english language teaching materials

School nutrition education programmes in the Pacific Islands: Scoping review and capacity needs assessment

2019-03-05
