vnav how to restore the descent profile after an altitude Aug 31 2023

until alt acq shows on your fma you can reset the mcp altitude without further action required when alt acq came on already and then you reset the mcp altitude your plane will go to v s and you d have to reengage vnav

what is next after reset mcp altitude pmdg 777 avsim Jul 30 2023

posted november 7 2018 nothing if you are in vnav pth the aircraft upon reaching t d will begin its descent if you are in any other mode you will have to do something depending on the mode and what you want to happen will alter what you need to do

need help decoding these 2 fmc errors airliners net Jun 28 2023

reset mcp altitude this just means you need to reset the altitude number showing on the mcp autopilot panel for the plane to either climb to the altitude plugged in the fmc the mcp altitude needs to be the same so if you have set your cruise altitude to fl370 and you want vnav to take the plane to 370 37 000 needs to be in the altitude window

i have forgot my mcp password training certification and May 28 2023

1 please open an internet explorer and visit the member site 2 sign in with your microsoft account preferred email and password that you would like to link with your mscert profile note if you receive an error that microsoft account doesn t exist just choose create one 3

ff 757 not warning me to reset mcp altitude before t d Apr 26 2023

imagenoreligion 7 subscribers subscribed 6 1 7k views 8 years ago just a bug that shows the fmc waiting until the last possible second to let the pilot know to reset the mcp altitude for

reset mcp altitude pmdg 737ngx 737ngxu avsim Mar 26 2023

that message comes up if the calculated vnav descent is approached and mcp hasn t been reset to a lower altitude the aircraft is calculating an idle thrust glide at econ speed from cruise into a slow down at 10 000ft and another approaching the centre fix for the approach selected

fmc message reset mcp alt pmdg 747 400 legacy avsim Sep 19 2022

posted november 1 2009 john what this is telling you is that you need to change the altitude on the
mcp because of an upcoming altitude change in your fmc flight plan for example let s say you ve
going from katl to klga at a planned cruising altitude of fl350 you set the initial mcp alt to 10000

unable to reset my access code to view my certificates Aug 19 2022

i m attempting to reset my access code to view my certificates but the page says that it s unable to
confirm my information steps i ve taken to get here 1 i have my mc id but not my access code so i
clicked this link to reset it mcp microsoft com home resetcode
