s 75 selector valve s h series **parker na**

Apr 05 2024

parker s s h sm hm are two position selector valves the s sm models are designed for directing an input flow to two different selectable circuits the h hm models are designed for adding float or freewheeling functionality to a circuit

snap tite 75 series hydraulic quick couplings threaded

Mar 04 2024

the rugged 75 series is designed and constructed for high pressure hydraulic service although these couplings are used in a broad variety of heavy duty applications a primary usage is in oil fields and offshore drilling available in sizes 3 4 through 4 in steel or stainless steel construction
