ways of thinking of eastern people is a comparative study of ways of thinking of major peoples of asia it has been widely admitted that this is the first attempt to give a survey and analysis of ways of thinking of asians which differ with peoples the author has chiefly centered in pointing out features of indian ways of thinking as well as chinese japanese and tibetian ones his knowledge of asian traditions as well as wonderful command of various languages of asia being combined have made this attempt quite successful and reliable in the scholarly sense there is hardly any book equal to ways of thinking of eastern peoples in terms of its thorough and systematic presentation of the intricate thought patterns of asian peoples the book not only is an essential reference for the student of asian culture but also for students of philosophy religion anthropology and art as it is an excellent source for aiding the student in gaining a deeper understanding of each facet of oriental thought isshi yamada northwestern university the clearest discussion and analysis of these complex subjects that i have found my advanced undergraduate students find this work to be stimulating challenging and comprehensible the organization of the text enhances the usefulness of this volume but it is the high quality of the scholarship that makes ways of thinking a most valuable addition to asian studies and to the academic training of upper division students ann b radwan university of north florida i find ways of thinking a most provocative source for exploring with my students certain basic themes in eastern religion and culture used carefully it is a most stimulating and effective source for tapping eastern ways at a fundamental level of inquiry wilbur m fridell university of california santa barbara presents an overview of the different peoples of eastern asia from pre history to the present presents an overview of the different peoples of eastern asia from pre history to the present most of what is known about the outside world remains superficial and stereotypical world and its peoples eastern and southern asia brings a long rich story to light about ethnic groups the impact of terrain and natural resources and the influence of history this unique reference work maps out how the nations of the modern world became what they are today through photographs of the geography and people of foreign lands through discussion of ancient and contemporary works of art and events and through scores of maps detailing geographical features historic and modern places natural habitats rainfall locations of ethnic and linguistic groups natural resources and centers of industry and transportation no single resource assembles such comprehensive insight into the world and the people who live in it the first illustrated book to explore the unique and rich cultural heritage of one of india s most diverse and interesting states arunachal pradesh though considerable research literature is now available on china india relations most of it still follows a conventional narrative viewing the relationship through the narrow conflictual prism limited to south asia than in the new larger perspective especially in the context of emerging east asian dynamics this book offers comprehensive analyses of some of these issues in papers addressing two broad themes one significant trends in the relationship between china and india on a range of issues including economic development models their military strategies and the boundary dispute and two how others are responding to the rise of india and china and their impact on east asia together the chapters constitute a comprehensive study on both china india relations and their concurrent rise including a variety of perspectives and methodologies written by some of the top experts on the subject from india china japan and taiwan and covering a broad range of issues the book will generate considerable interest in understanding this relatively neglected dimension of today s east asia a modest effort has been made through the present treatise to give a first hand systematic anthropological information on these little known people of the region who are living in relative isolation the canvas of the present compilation on people of north east india is indeed multi disciplinary and trans sectoral in nature and combines in depth studies and analysis of distinguished and dedicated team of anthropologists of india eighteen well researched articles and their thematic analysis cover an astonishing array of subjects and throw light on some of the important facets of anthropology will be of extremely useful to anthropologists demographers various social biological and medical scientists as well as administrators planners policy makers most of what is known about the outside world remains superficial and stereotypical world and its peoples eastern and southern asia brings a long rich story to light about ethnic groups the impact of terrain and natural resources and the influence of history this unique reference work maps out how the nations of the modern world became what they are today through photographs of the geography and people of foreign lands through discussion of ancient and contemporary works of art and events and through scores of maps detailing geographical features historic and modern places natural habitats rainfall locations of ethnic and linguistic groups natural resources and centers of industry and

transportation no single resource assembles such comprehensive insight into the world and the people who live in it a comprehensive study dealing with music of north eastern india with special emphasis on musical instruments of assam has over 75 colour illustrations which add to the usefulness of the book this book explores sino indian tensions from the angle of state building showing how they stem from their competition for the himalayan people s allegiance swarupa gupta outlines a paradigm for moving beyond ethnic fragmentation by showing how people made places to forge an interregional arena the analysis includes interpretive strategies to mediate contemporary separatisms this fascinating collection of primary source materials provides a unique introduction to the woodland indians who inhabited northeastern america in the region bordered by the carolinas the great lakes and the maritime provinces of canada substantial portions of the sixty seven original documents included written primarily by french and english settlers explorers missionaries and indian women reveal the feelings and prejudices of their authors thus allowing the reader an intriguing look into the lives of both the native americans and the foreigners who supplanted them frequent contacts between these farming tribes and the early immigrants played a large part in shaping the fabric of life in colonial america from back cover excerpt from the social organisation in north east india in buddha s time that i have placed the culture which the jatakas exhibit in north eastern india will i hope not provoke any opposition for although most of the stories contained in our sources are so far as their contents are concerned the common property of the indian people and were known all over india yet in the form in which they appear in the jatakas they belong to a particular part of india namely the north east the home of buddhism about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works the last quarter century has seen extensive research on the ports of the red sea coast of egypt the road systems connecting them to the Nile and the mines and quarries in the region missing has been a systematic study of the peoples of the eastern desert the area between the red sea and the Nile valley in whose territories these ports roads mines and quarries were located the historical overview of the eastern desert in the shape of a roughly chronological narrative presented in this book fills that gap the multidisciplinary perspective focuses on the long term history of the region the extensive range of topics addressed includes specific historical periods natural resources nomadic survival strategies ancient textual data and the interaction between christian hermits and their neighbors the breadth of perspective does not sacrifice depth for all authors deal in some detail with the specifics of their subject matter as a whole this collection provides an outline of the history and sociology of the eastern desert unparalleled in any language for its comprehensiveness as such it will be the essential starting point for future research on the eastern desert includes a cd of eleven audio files with music of the ababda nomads and six short videos of ababda culture marietta stepaniants introductory text allows a distinctively eastern way of thinking to come forth four interpretive essays open the book showing how indian chinese and islamic traditions responded to these questions how did philosophy arise what is the origin of order in the universe what is human nature what is truth a fifth unique essay shows how eastern thought has dealt with western contact in the 19th and 20th centuries in the second half of the book original writings ancient and modern are placed in their cultural context by the author and give access to the thinkers specific arguments unlike any other text introduction to eastern thought includes islamic philosophies alongside indian and chinese traditions this broader sense of the east the combination of interpretive essays and original sources the sense of eastern philosophies as alive and ongoing are unrivalled by any other textbook comparisons within and across traditions make introduction to eastern thought an excellent text for students familiar with western philosophy or beginning philosophy students ethnological study of the people of assam and adjoining areas in north east india developing a framework to study what makes a region amitav acharya investigates the origins and evolution of southeast asian regionalism and international relations he views the association of southeast asian nations asean from the bottom up as not only a u s inspired ally in the cold war struggle against communism but also an organization that reflects indigenous traditions although acharya deploys the notion of imagined community to examine the changes especially since the cold war in the significance of asean dealings for a regional identity he insists that imagination is itself not a neutral but rather a culturally variable concept the regional imagination in southeast asia imagines a community of nations different from nafta or nato the oau or the european union in this new edition of a book first published as the quest for identity in 2000 acharya updates developments in the region through the first decade of the new century the aftermath of the financial crisis of 1997 security affairs after september 2001 the long term impact of the 2004 tsunami and the substantial changes wrought by the rise of china as a regional and global actor acharya argues in this important book for the crucial importance of regionalism in a different part of the world this vigorously researched publication for advanced graduate students and fellow scholars of the chinese pure land tradition jingtu famen in

the wider context of chinese buddhism extends the horizon opened up by recent leading scholars to reconstruct a more insightful understanding of the jingtu famen and the notion of zong focusing on previously unstudied writings of sheng an shixian 1686 1734 the findings support the argument that the jingtu famen is an advanced form of mahāyānist meditation rooted in the mādhyaṃika and yogācāra traditions the original english translation of master shixian s writings provided also paves the way for other researchers to conduct new and extended studies the seven north eastern states of india during the last six decades of isolation have braved enormous difficulties beginning with the impact of partition liberation of bangladesh influx of people from outside and continuing conflicts based on caste tribe language race and religion there is also a flip side to the bad governance and economic woes of the people of this region their geographical and cultural proximity with the south east asian countries make the area to be of enormous economic importance in the future this book argues how the regions trade with various neighbouring countries if facilitated and encouraged and if efforts are made for greater convenience in international trade through the simplification of economic activities such as movement of goods people and services across borders the region can blossom to its full potential but for this the centre has first to realize the urgent need to open up than to lock up the area in order to provide security to the people one of the first studies of its kind this volume highlights in detail the north easts central position vis á vis bangladesh myanmar and the rest of south east asia understanding eastern philosophy provides an accessible critical introduction to how some of the key philosophies of the east compare with those in the west starting from a discussion of the problems of distinguishing between religions and philosophies ray billington presents a clear picture of the key tenets behind hinduism buddhism taoism jainism and confucianism moving on to compare the key themes of religious philosophy that cut across east and west such as a belief in god the soul moral decision making nature and authority understanding eastern philosophy presents a fascinating and controversial picture of the contribution theistic religions have to make with its belief in a personal god bestowing a particular version of truth ray billington concludes that the universal mysticism characteristic of eastern thought provides a more realistic and rewarding path than is commonly supposed in the west understanding eastern philosophy assumes no prior knowledge of religion or philosophy
