## Process

2008

process an improviser's journey is an invaluable resource for mastering improv author teacher and improviser michael gellman was given a mission by famed improv coach del close to create improvised one act plays of literary quality from scratch already steeped in the world of improvisation he took it upon himself to do this in the form of a class for other improvisers in which they would build the skills necessary to execute such a seemingly tall order scruggs and gellman's book modeled after stanislavski's timeless an actor prepares follows a fictional young actor taking gellman's real life class scruggs and gellman introduce readers to geoff who has just moved to chicago to pursue acting he undergoes the standard trials of audition and rejection before he takes the advice of a fellow actor and turns to improv classes at second city at first geoff thinks improvisation is about laughs and loosening up but he soon learns that it is a powerful tool as well as an end in itself through geoff's eyes the book introduces readers to key tenets of improvisation concentration visualization focus object work being in the moment and the crucial yes and his experiences with the basics of improvisation do serve to get him a few roles but his real breakthrough comes when he signs up for an improvised one act class with michael gellman he and his classmates arrive unprepared for the challenge but with gellman's prompts and advice they slowly move through process to performance over the course of three seasons in chicago the class culminates with their final project a completely improvised one act play performed in front of a live audience

## Improviser's Manual

2015-05-15

the purpose of this book is to be presented as a guide in order to provide the proper piece of knowledge to the improviser either for a beginner or a sophisticated and well educated professor a textbook that will surely accompany him from his first musical steps and also become an instructor for this endless journey of improvisation this book includes greek and international terminology for the reader in order to get familiarized with the universal language of music i wish everyone have a wonderful journey into the world of improvisation and music in general

## Cervantine Journeys

1992

hutchinson focuses initially on movement as concept and metaphor affirming its centrality in the conceptualization of all discursive activities he draws on an array of authors including heraclitus plato longinus rabelais nietzsche saussure frances yates kristeva meschonnic and deleuze to demonstrate the motion of discourse and of those engaged in it he then turns to cervantes novels to show how metaphors of movement and travel appearing on nearly every page dominate the conceptualization of the soul the self desire love and life processes viewing travel as a composite of concurrent modes of experience with differing content and rhythms hutchinson considers the concept of errancy the nature of place and the traveler's shifting relations with it and the values that travel may have as a motion displacement encounter and goal of key importance are the means of improvisation developed en route his re examination of bakhtin's chronotope in light of cervante's novels reveals the dynamic character of time spaces in which travelers move he shows moreover that unlike typical renaissance utopias the many worlds of cervantes novels have the principles of becoming and dissolution inscribed in them reflecting on the narrative of journeys both as memory and invention hutchinson concludes with an examination of the relations between travel experience and travel narrative and a discussion of the whereabouts of writers and readers in cervantes novels the narration of journeys he argues necessitates and

encourages improvisatory writing

## ***The Improviser's Way***

2017-10-04

## **The Aesthetics of Imperfection in Music and the Arts**

2020-10-01

the aesthetics of imperfection emphasises spontaneity disruption process and energy over formal perfection and is often ignored by many commentators or seen only in improvisation this comprehensive collection is the first time imperfection has been explored across all kinds of musical performance whether improvisation or interpretation of compositions covering music visual art dance comedy architecture and design it addresses the meaning experience and value of improvisation and spontaneous creation across different artistic media a distinctive feature of the volume is that it brings together contributions from theoreticians and practitioners presenting a wider range of perspectives on the issues involved contributors look at performance and practice across western and non western musical artistic and craft forms composers and non performing artists offer a perspective on what is imperfect or improvisatory within their work contributing further dimensions to the discourse the aesthetics of imperfection in music and the arts features 39 chapters organised into eight sections and written by a diverse group of scholars and performers they consider divergent definitions of aesthetics employing both 18th century philosophy and more recent socially and historically situated conceptions making this an essential up to date resource for anyone working on either side of the perfection imperfection debate

## **Improvising Better**

## **Thinking in Jazz**

2009-10-05

a landmark in jazz studies thinking in jazz reveals as never before how musicians both individually and collectively learn to improvise chronicling leading musicians from their first encounters with jazz to the development of a unique improvisatory voice paul berliner documents the lifetime of preparation that lies behind the skilled improviser s every idea the product of more than fifteen years of immersion in the jazz world thinking in jazz combines participant observation with detailed musicological analysis the author s experience as a jazz trumpeter interpretations of published material by scholars and performers and above all original data from interviews with more than fifty professional musicians bassists george duvivier and rufus reid drummers max roach ronald shannon jackson and akira tana guitarist emily remler pianists tommy flanigan and barry harris saxophonists lou donaldson lee konitz and james moody trombonist curtis fuller trumpeters doc cheatham art farmer wynton marsalis and red rodney vocalists carmen lundy and vea williams and others together the interviews provide insight into the production of jazz by great artists like betty carter miles davis dizzy gillespie coleman hawkins and charlie parker thinking in jazz overflows with musical examples from the 1920s to the present including original transcriptions keyed to commercial recordings of collective improvisations by miles davis s and john coltrane s groups these transcriptions provide additional insight into the structure and creativity of jazz improvisation and represent a remarkable resource for jazz musicians as well as students and educators berliner explores the alternative ways aural visual kinetic verbal emotional theoretical associative in which these performers conceptualize their music and describes the delicate interplay of soloist and ensemble in collective improvisation berliner s skillful integration of data concerning musical development the rigorous practice and thought artists devote to jazz outside of performance and the complexities of composing in the moment leads to a new understanding of jazz improvisation as a language an aesthetic and a tradition this unprecedented journey to the heart of the jazz tradition will fascinate and enlighten musicians musicologists and jazz fans alike

## **Improvising Improvisation**

2017-05-29

there is an ever increasing number of books on improvisation ones that richly recount experiences in the heat of the creative moment theorize on the essence of improvisation and offer convincing arguments for improvisation s impact across a wide range of human activity this book is nothing like that in a provocative and at times moving experiment gary peters takes a different approach turning the philosophy of improvisation upside down and inside out guided by kant hegel heidegger and especially deleuze and exploring a range of artists from hendrix to borges peters illuminates new fundamentals about what as an experience improvisation truly is as he shows improvisation isn t so much a genre idiom style or technique it s a predicament we are thrown into one we find ourselves in the predicament he shows is a complex entwinement of choice and decision the performativity of choice during improvisation may happen in the moment but it is already determined by an a priori mode of decision in this way improvisation happens both within and around the actual moment negotiating a simultaneous past present and future examining these and other often ignored dimensions of spontaneous creativity peters proposes a consistently challenging and rigorously argued new perspective on improvisation across an extraordinary range of disciplines

## **Journeys of Lifelong Learning in Music**

2021-07-31

who am i as a musician and how can i contribute to society it is the key question in this reflective handbook on lifelong learning in music in which rineke smilde reflects on today s musicians emerging identity and its relationship with their professional performance for many years she has been leading the research group lifelong learning in music of prince claus conservatoire hanze university groningen examining questions about the relationship between musicians and society what for example does engagement with new audiences mean for the different roles learning and leadership of musicians and how could we consider musicians learning environments during the research into their learning processes further questions were raised and possible answers examined in this reflective handbook fundamental concepts of lifelong learning in music are clarified and discussed through examples of research projects which were explorative and innovative a fair amount was learnt several key themes are identified such as reflective practice artistry excellence reciprocity and artistic response in particular the multilayered roles of biographical learning and improvisation emerge in these examples special attention is given to the notion of the reflexive conservatoire which is rooted within the framework of lifelong learning and includes attention to tacit knowing artistic excellence and the crucial connection to the outside world in the end the author makes a strong case for all musicians developing an informed social role that reflects their own identity and underpins their professional performance there is an emphasis on eliminating the false dichotomy between artistic practices as l art pour l art or social work this can only be achieved through convincing examples of artistic practices in social contexts which inform musicians artistic growth and strengthen their personal and professional development and sense of identity here there is no either or on the contrary tradition and innovation are married and strengthen each other by being complementary

## **History of Technology Volume 30**

2011-03-31

this book focuses on the development of four key issues in the development of modern spain knowledge manufacturing energy and telecommunications and public works if technology transfer from advanced nations to less developed systems always worked then the whole world would now be rich that this is not the case is so obvious we might well expect that the history of the processes successes and failures of technology transfer across nations would be a very well established field of enquiry in fact the theme is still a developing one and the present special issue centres on the case of spain as exemplary in many respects the collected essays focus upon the four major themes of knowledge manufacturing energy and telecommunications and public works essays range in time from the 18th century to the present time from studies of espionage and early links between craftsmen and savants to the institutions of technology from training systems to private enterprise activity or patents to case studies of silk manufacture shipbuilding mining paper making and pharmaceuticals each essay offers a broad variety of material to bring to bear on a major problem of world development past present and future

## ***Philosophy of Improvisation***

2021-05-31

this volume brings together philosophical and interdisciplinary perspectives on improvisation the contributions connect the theoretical dimensions of improvisation with different viewpoints on its practice in the arts and the classroom the chapters address the phenomenon of improvisation in two related ways on the one hand they attend to the lived practices of improvisation both within and without the arts in order to explain the phenomenon they also extend the scope of improvisational practices to include the role of improvisation in habit and in planned action at both individual and collective levels drawing on recent work done in the philosophy of mind they address questions such as whether improvisation is a single unified phenomenon or whether it entails different senses that can be discerned theoretically and practically finally they ask after the special kind of improvisational expertise which characterizes musicians dancers and other practitioners an expertise marked by the artist s ability to participate competently in complex situations while deliberately relinquishing control philosophy of improvisation will appeal to anyone with a strong interest in improvisation to researchers working in philosophy aesthetics and pedagogy as well as practitioners involved in different kinds of music dance and theater performances
