The Coalition Effect, 2010–2015 2015-03-26 the essential verdict on britain s first coalition government since the second world war delivered by an unrivalled team of experts

An Introduction to the World of Work 2016-02-24 introduction to the world of work synopsis we have subdivided the modules into personal and business since this seems a logical approach educationalists suggest an inductive approach to education is the best one where we go from the experience of the students to the underlying principles and therefore we have put in the personal modules first the objective of all the modules is both to help people within schools or colleges to be faced with realistic choices which can be answered if necessary in the classroom but also to provide material which can be used by young people working on their own young people need to have transferable skills and some of these can be obtained by looking at the ways in which businesses approach them it is therefore worthwhile trying to build up a portfolio of ways in which businesses have these approaches and to see which ones are effective and why also which ones are totally misplaced

2012 GCSE English results 2013-06-11 the 2012 gcse english results prompted significant controversy which ultimately resulted in an application for judicial review this report sets out the background to these events and identifies lessons to be learned the problems with gcse english can be traced back to the 2007 09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim ofqual further difficulties arose because of pressures from the school accountability system the problems experienced with gcse english in 2012 highlighted serious weaknesses in the moderation of speaking and listening with

consequences for grade awarding the current status of ofqual as an independent regulator accountable to parliament is the right one however the coalition government is bringing in wholesale changes to gcse and a levels to a tight timetable and at the same time ofqual must have systems in place the committee is also concerned that there is a rush towards separate exam systems for england wales and northern ireland without careful reflection on what might be lost or consensus that this is the right thing to do
