catholic social teaching when it is not distorted or misrepresented is famously confounding to the pundits and politicians both left and right how can the catholic church simultaneously advocate against abortion and assisted suicide but for immigration reform and attention to the poor how can it stand against the abuse of the environment and for the free market against the death penalty and for the family this unique work on fire classics collection aims to bring the both and of the church's social teaching into sharp relief that teaching comes roaring out of the old testament prophets and the new testament into the writings of the church fathers and down through the church's encyclicals and in the writings of the saints the catholic social teaching collection encompasses all of these different dimensions of the church's history but its purpose is not just to reveal the ethical and historical breadth of catholic social teaching it is to reveal its metaphysical heart namely god with god out of the picture it is indeed hard to make sense of the array of opinions the church holds but with god at the heart of things the positions fall into harmony much like the medallions in a rose window if god exists then every individual person is a subject of rights freedom and dignity if god exists then no one is expendable and everyone is equally worthy of respect

described as the catholic church s best kept secret catholic social teaching provides a rich body of thought and finds a particular resonance as all denominations in the church seek to engage with the needs of contemporary society yet beyond the immediate context of the catholic church it is all too readily ignored resolutely aimed at those who come from traditions beyond the movement s traditional catholic heartlands but who seek to view their ministry through the lens of generous orthodoxy love in action offers a deeply scriptural but accessible introduction to this vital approach to the church s ministry in the world

this book identifies both the consistencies and disparities between catholic social teaching and the united nation s un sustainable development goals sdgs with pope francis laudato si encyclical catholicism seems to be engaging more than ever with environmental and developmental concerns however there remains the question of how these theological statements will be put into practice the ongoing involvement of the catholic church in social matters makes it a significant potential partner in issues around development therefore with the use of

the comparative method this book brings together authors from multiple disciplines to assess how the political and legal aspects of each of the UN's 17 SDGs are addressed by Catholic social teaching. Chapters answer the question of how the Catholic Church evaluates the concept of sustainable development as defined by the Agenda 2030 goals as well as assessing how and if it can contribute to shaping the contemporary concept of global development. Examining the potential level of cooperation between the international community and the Catholic Church in the implementation of the Agenda 2030 goals, this volume will be of keen interest to scholars of Catholic studies, religious studies and the sociology of religion as well as environmental studies and development studies.

## **Sustainable Development Goals and the Catholic Church 2020-11-29**

This book investigates the response of the Catholic Church in Northern Ireland to the conflict in the region during the late twentieth century. It does so through the prism of the writings of Cardinal Cahal Daly (1917-2009), the only member of the hierarchy to serve as a bishop throughout the entire conflict. This book uses the prolific writings of Cardinal Daly to create a vision of the peaceable kingdom and demonstrate how Catholic social teaching has been used to promote peace, justice and nonviolence. It also explores the public role of the Catholic Church in situations of violence and conflict as well as the importance for national churches in developing a voice in the public square. Finally, the book offers a reflection on the role of Catholic social teaching in contemporary society and the ways in which the lessons of Northern Ireland can be utilised in a world where structural violence, as evidenced by austerity and reactions to Brexit in the United Kingdom, is now the norm. This work challenges and changes the nature of the debate surrounding the role of the Catholic Church in the conflict in Northern Ireland. It will therefore be a key resource for scholars of religious studies, Catholic theology, religion and violence, peace studies and twentieth-century history.

for more than a century the teaching authority of the catholic church has attempted to walk along with the modern world criticizing what is bad and praising what is good counsels of imperfection described the current state of that fairly bumpy journey the book is divided into 11 chapters first comes an introduction to ever changing modernity and the unchanging christian understanding of human nature and society then come two chapters on economics including a careful delineation of the catholic response past and present to socialism and capitalism the next topic is government with one chapter on church and state another on war and a third that runs quickly through democracy human rights the welfare state crimes and punishments including the death penalty anti semitism and migration counsels of imperfection then dedicates two chapters on ecology including an enthusiastic analysis of francis s technocratic paradigm the last topic is the family teaching which presents the social aspects of the church s sexual teaching a brief concluding chapter looks at the teaching s changing response to the modern world and at the ambiguous catholic appreciation of the modern idea of progress for each topic counsels of imperfection provides biblical historical and a broad philosophical background thomas aquinas appears often but so does g w f hegel the goal is not only to explain what the church really says but also how it got to its current position and who it is arguing with in the spirit of a doctrine that is always in development counsels of imperfection points out both strong points and imperfections in the teaching the book should be of interest to specialists in catholic social teaching but its main audience is curious newcomers especially people who do not want to be told that there are simple catholic answers to the complicated problems of the modern world
