by the capacity for homeostasis organisation  
metabolism growth adaptation response to stimuli  
and reproduction apr 5 2024 the phenomenon of  
life can be approached in several ways life as it  
is known and studied on planet earth life  
imaginable in principle and life by hypothesis  
that might exist elsewhere in the universe see  
extraterrestrial life the meaning of our life its  
purpose and justification is to fulfill the  
expectations of god and then to receive our final  
reward but within the internal view of meaning we  
can argue that meaning is best found in activities  
that life is the aspect of existence that  
processes acts reacts evaluates and evolves  
through growth reproduction and metabolism the  
crucial difference between life and non life or  
non living things is that life uses energy for  
physical and conscious development what is it that  
defines life how can we tell that one thing is  
alive and another is not most people have an  
intuitive understanding of what it means for  
something to be alive however it s surprisingly  
hard to come up with a precise definition of life
