the most important governmental institutions in our society however because the supreme court can hear less than 150 cases per year the circuit courts with a combined caseload of over 60 000 are for practical purposes the courts of last resort for all but a tiny fraction of federal court litigation thus their significance both for ultimate dispute resolution and for the formation and application of federal law cannot be overstated yet in the last forty years a dramatic increase in caseload and a systemic resistance to an increased judgeship have led to a crisis signed published opinions form only a small percentage of dispositions judges confer on fifty routine cases in an afternoon and most litigants are denied oral argument completely in injustice on appeal the united states courts of appeals in crisis william m richman and william l reynolds chronicle the transformation of the united states circuit courts consider the merits and dangers of continued truncating procedures catalogue and respond to the array of specious arguments against increasing the size of the judiciary and consider several ways of reorganizing the circuit courts so that they can dispense traditional high quality appellate justice even as their caseloads and the number of appellate judgeships increase the work serves as an analytical capstone to the authors thirty years of research on the issue and will constitute a powerful piece of advocacy for a more responsible and egalitarian approach to caseload glut facing the circuit courts this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work was reproduced from the original artifact and remains as true to the original work as possible therefore you will
