Branches to Heaven

2015-12-30

of edmund spenser c s lewis wrote his work is one like a growing thing a tree with branches to heaven and roots to hell and in between these two extremes comes all the multiplicity of human life this book seeks to demonstrate the aptness of that quotation when applied to lewis himself from his deepest emotional and psychological landscape to his prevailing temperament and then to his training lewis marshaled his magnificent rhetorical skills on behalf of his vocation to make christianity a reasonable and inviting alternative to doubters in this and through the many genres of which he was a master he never wavered these are the branches the available means of persuasion as aristotle put it sources influences experience and his very self these are the roots a close look at these with a combination of argument critical analysis and some fresh connections finally yield an unexpected portrait c s lewis and his work are indeed one with deeper roots and loftier branches than the current reputation of the master and his avuncular persona suggest

The Longing for a Form

2008-06-02

c s lewis s extremely popular works of fiction have been widely discussed in terms of the ideas and religious themes they express and defend but less often in terms of their purely literary qualities ironically lewis himself a noted literary critic would have objected to any such one sided analysis of his works to concentrate exclusively or even primarily on the content of a work without a consideration of its form and style was in his view a seriously unbalanced method of criticism the longing for a form corrects this critical imbalance by supplying a theoretical background and detailed close readings for a better understanding and appreciation of lewis s fiction as works of art following three general studies a section of the book is devoted to each to lewis s major efforts in fiction the ransom trilogy the chronicles of narnia and till we have faces considering the distinctive literary features of each group and individual books within the group running through the book is an emphasis on form as literary kind and as structure and a recurrent attention to three themes of particular importance in lewis as a writer of fiction objectivism longing and the literary artist as creator individually the essays supply fresh insights into the style and meaning of specific works by lewis as a group they illustrate a depth technical skill and unity of thought and theme which have not previously been accorded lewis as an artist in fiction
