biacore assay handbook 29019400 ge healthcare life sciences biacore sensor surface handbook biacore sensor surface handbook br100571 ge healthcare life sciences cell separation

ion exchange chromatography chromatofocusing vwr

Sep 23 2023

this handbook describes both theoretical and practical aspects principles of the technique the media available and how to select them application examples and detailed instructions for the most commonly performed procedures

affinity chromatography principles and methods ge healthcare ge

Aug 22 2023

affinity chromatography separates proteins on the basis of a reversible interaction between a protein or group of proteins and a specific ligand coupled to a chromatography matrix the technique offers high selectivity hence high resolution and usually high capacity for the proteins of interest

affinity chromatography handbook vol 2 tagged proteins

Jul 21 2023

ge healthcare life sciences

Nov 13 2022

gammabindtm plus sepharose™ gammabindtm plus sepharose is gammabind g type 3 covalently immobilized to sepharose cl 6b by malimide linkage this rigid matrix results in easy handling and fast separations gammabind g type 3 a recombinant form of streptococcal protein g binds to the fc region of igg from a variety of mammalian species

ion exchange chromatography cytiva

Oct 12 2022

ion exchange chromatography iex separates proteins with differences in surface charge to give high resolution separation with high sample loading capacity the separation is based on the reversible interaction between a charged protein and an oppositely charged chromatography resin
