## **optical sorting processing rice wheat grains satake usa *Mar 27 2024***

satake manufactures food processing machinery for harvesting milling grading optical sorting to packing rice wheat corn other grains serving the americas from canada to argentina 281 276 3600

## **optical sorter nirami satake group *Feb 26 2024***

shape recognition technology enables the machine to sort the material by shape such as broken or adhered which conventional color sorters could not achieve advanced 3s software the 12 inch touch screen is designed for easy use the user friendly interface with simple icons and images provides intuitive operation of the machine

## ***optical sorter ezer satake group Jan 25 2024***

new full color sorter reliable japanese designed ejectors and electronics ensure easy and stable operation the screen can be operated with the same actions as smartphones excellent visual screen design provides user friendly operation stable performance

## **satake pikasen fms2000 full color compact optical sorter *Dec 24 2023***

the satake pikasen fms2000 is a compact full color rgb optical sorter ideal for small and medium size applications the fms incorporates advanced digital image processing software and automatic image adjustment functions allowing accurate sorting of a wide range of product types

## **fms satake group *Nov 23 2023***

satake smart sensitivity simply scan both accept and reject products then press button to automatically create the color profile for easy sort setting stable supply of material new material supply system cut gate cascade provide various materials to flow smoothly with stable capacity accurate shape sorting

## ***fms color sorter satake usa request product information today Oct 22 2023***

satake s pikasen alpha fms 2000 is a portable cost effective full color rgb optical sorting machine for small medium size applications serving the americas from canada to argentina 281 276 3600

## **satake launches new optical sorter nirami satake group *Sep 21 2023***

hiroshima japan june 24 2021 satake announces a debut of its latest and largest optical sorter in size and capacity nirami series satake s latest high specification optical sorter nirami is designed to efficiently sort grains pulses seeds and many other products

## **evolution satake group *Aug 20 2023***

satake rgb technology provides the highest level of true color imaging in the industry using the industry standard technologies like high power leds and full color cameras the full color rgb technology creates a near identical representation of natural color variations similar to what the human eye sees

## **home satake group *Jul 19 2023***

optical sorting wheat milling maize other grain milling analytical equipment rice cooking system foods analysis service sorting processing integrated center

## ***optical sorting satake europe Jun 18 2023***

satake is a technology leader in optical sorting systems for seed grain food and plastic applications where traditional methods of mechanical separation cannot give the required speed and accuracy satake sorters use precise colour and shape recognition technology to increase the quality of product to meet our customers needs and safety

## **satake optical sorter range nir rgb sorting May 17 2023**

rgbr optical sorters provide efficient solutions for removing inorganic and foreign material and product defects making them ideally suited to commercial use featuring advanced ingaas infrared technology impurities such as glass plastic stones and other items that have similar colour to the accept product

## ***satake rgbr full color shape and nir sorter Apr 16 2023***

the satake rgbr optical sorter features advanced full color sorting technology with rgb camera image analysis and is ideally suited to sort dry beans tree nuts grains and other agricultural products it also features shape and size sorting to help remove the non uniform product or reject material of the exact same color but of different size

## **sorting and processing integrated center *Mar 15 2023***

discovering new possibilities using satake s latest sorting and processing technology while considering customers processing and manufacturing conditions we make optimal business proposals that solve product quality concerns customer benefits product quality optimum sorting ratio improves product quality and leads to fewer complaints

## **the worldfolio satake creating the future *Feb 14 2023***

satake creating the future interview july 6 2022 always seeking the next breakthrough satake has over a century of experience that enables it to continually innovate in food processing systems for worldwide needs

## ***rice analyzer rgqi 100b satake group Jan 13 2023***

rice processing system full plant system optical sorting wheat milling maize other grain milling analytical equipment rice cooking system foods analysis service

## **asia global network satake group *Dec 12 2022***

satake system engineering suzhou co ltd 229 jin feng road suzhou new district suzhou city jiangsu province 215129 people s republic of china tel 86 512 65368225 tel 86 512 65368225

## ***sortera waste sorting bin with lid white 60 l ikea Nov 11 2022***

34 90 choose size 60 l how to get it delivery information currently unavailable find all options at checkout store purchase check in store stock add to cart this durable plastic storage bin has a foldable lid that makes it easy to open even if you have another bin stacked on top
