New Year's Day for Cats 2016-11-20 a brave process of healing and self reconstruction observer simply one of the best writers working today here's to family to glamour and to love nell frizzell author of *The Panic Years* i looked around at my flat at the woodchip wallpaper and scuffed furniture and realised that i did have a life after all what it didn't have in it was a cat when rhiannon fell in love with and eventually married her flatmate she imagined they might one day move on but this is london in the age of generation rent and so they share their home with a succession of friends and strangers while saving for a life less makeshift the desire for a baby is never far from the surface but can she be sure that she will ever be free of the anxiety she has experienced since an attack in the street one night and after a childhood spent caring for her autistic brother does she really want to devote herself to motherhood moving through the seasons over the course of lockdown the year of the cat nimbly charts the way a kitten called mackerel walked into rhiannon's home and heart and taught her to face down her fears and appreciate quite how much love she had to offer a superbly written special book olivia sudjic author of *Asylum Road* beautifully captures that liminal period before any life changing decision new statesman

Cat vs. Cat 2004-07-06 this is the true story of riley a 5 month old kitten who was adopted from an animal shelter he originally had a different name and lived in the shelter for several months he was caught in a humane trap with his mother and two siblings as a part of a local trap and release program his mother was spayed and released he and his brother and sister were kept at the shelter spayed and neutered until families came and adopted them the story is directed towards elementary and middle school aged children there are 20 pages with full color illustrations included is a vocabulary list and definitions at the back of the book with a brief description of what spaying and neutering are in a poem at the back of the book the author gives praise to our creator for such a beautiful pet for their family excerpt from the statistics page in the book there is an animal overpopulation problem in america millions of unwanted and uncared for animals go into shelters each year and are euthanized put to death please study these statistics before allowing your pets to become pregnant

careless litters of puppies and kittens add to the animal overpopulation problem these statistics are startling and very sad please spay or neuter your pets kittens can become pregnant as early as 6 months old they can have three litters of kittens a year averaging 4 kittens in each litter that is 12 kittens or more per unspayed female cat per year then if any of those kittens are female they can also start having kittens at 6 months of age then number of kittens and unwanted cats adds up quickly
