The European History Highway: A Guide to Internet Resources 2002 horton s elegiac anthology of 15 mostly hard sf stories illuminates a broad spectrum of grief over love thwarted through time space human frailty or alien intervention from the gentle melancholy of michael swanwick s triceratops summer which posits tame technicolored time warped dinosaurs in vermont to newcomer leah bobet s bliss an agonizing riff on near future drug addiction several selections address current political social issues like mary rosenblum s search engine which extrapolates today s technology to chilling big brotherly results the long closing story alastair reynolds s

understanding space and time however presents a ray of cosmic hope the sole survivor of a plague that decimated humanity is rescued and healed by intergalactic entities and lives out millennia while seeking ultimate truths returning to see mankind regenerated this anthology reflects the concerns of the genre today and the apparent inability of our society to do anything about them publishers weekly

The History Highway 3.0 2007 hunting the skies is not for the faint hearted in a world where water is scarce and deadly jellyfish swim through the sky overprotected christien dreams of excitement adventure and even a bit of danger when he meets the exotic and alluring jenine and her family of cloud hunters he becomes determined to fulfill his dreams and see what this nomadic tribe of people is all about the cloud hunters are set apart from society with their darker heavily tattooed skin and the distinctive scars on their faces christien has been fascinated by them for years and when jenine invites him on a hunting expedition he is only too eager to join her on the sky ship but this is no ordinary cloud hunting trip christien finds that he s been brought along to help rescue jenine s father who s being held prisoner on the forbidden isles will their elaborate rescue plan succeed will christien take up the cloud hunters offer to become one of them scars and all or will christien find that there is something even more important to him than adventure in the high skies in a richly imaginative tale perfect for both boys and girls as they launch themselves into the world of fiction as independent readers alex shearer creates a dahl esque fantasy that roams through realms of magic wonder and adventure

The European History Highway 2010-10-08 captain lana fiveworlds has a hell of a lot of problems she s sliding void in an ageing seven hundred year old space ship scrabbling around the edges of civilised space trying to find a cargo lucrative enough to pay her bills without proving so risky that it ll kill her she s got an alien religious freak for a navigator an untrustworthy android for a first mate a disgraced lizard for a trade negotiator and a deserter from the fleet acting as her chief

engineer and that was well before an ex crewman turns up wanting lana to rescue a barbarian prince from a long failed colony world unfortunately for lana the problems she doesn't know about are even more dangerous in fact they just might be enough to destroy lana's rickety but much loved vessel the gravity rose and jettison her and her crew into the void without a spacesuit but there's one thing you can never tell an independent space trader that's the odds

Hunting and Imaging Comets 2022-03-29 a comprehensive history of manhunting in the west from ancient times to the present touching on issues of power authority and domination manhunts takes an in depth look at the hunting of humans in the west from ancient sparta through the middle ages to the modern practices of chasing undocumented migrants incorporating historical events and philosophical reflection grégoire chamayou examines the systematic and organized search for individuals and small groups on the run because they have defied authority committed crimes seemed dangerous simply for existing or been categorized as subhuman or dispensable chamayou begins in ancient greece where young spartans hunted and killed helots sparta's serfs as an initiation rite and where aristotle and other philosophers helped to justify raids to capture and enslave foreigners by creating the concept of natural slaves he discusses the hunt for heretics in the middle ages new world natives in the early modern period vagrants jews criminals and runaway slaves in other eras and illegal immigrants today exploring evolving ideas about the human and the subhuman what we owe to enemies and people on the margins of society and the supposed legitimacy of domination chamayou shows that the hunting of humans should not be treated ahistorically and that manhunting has varied as widely in its justifications and aims as in its practices he investigates the psychology of manhunting noting that many people from bounty hunters to balzac have written about the thrill of hunting when the prey is equally intelligent and cunning an unconventional history on an unconventional subject manhunts is an in depth consideration of the dynamics of an age old form of violence

Freya and the Beast 2013 the events depicted in this book have all been adapted and embellished in order to create this science fiction novel spot the join if you can however most of the content espouses a more or less true record of time travels by the author the scientific theory embodied within the novel should give cosmic scientists a nudge in the right direction it offers a brand new hypothetical understanding of how the universe actually operates john knows that as normal living and breathing human beings rather than the mechanical intelligent memory units mim units as described by zondor you wont be tempted to believe this story that is until it happens to you the average sane human reader yet recent scientific discoveries offer some credence to the tale those new theories while similar to my experience depend on the idea of the projection of the universe as a hologram and modern scientists owe some sympathy to the idea they have not had the dubious benefit of my experiences as a guide however so the idea of projecting serial electronic pictures across a time continuum and onto an event horizon has not hit the new science headlines so far even though the technology exists for such events like all new science my idea will have its arm chair critics the reader of this book is about to become one of those critics to the sceptic i would ask the question how long is it since radio and television were invented discovered if you wrote a book about radio and television in the 19th century would you have ended up in the loony bin most likely john greenridge 2009
